WABASH TO DIG TUNNEL

Intends to Reach Freight Terminal by New Mt. Washington Bore.

BIG PLAN OF P. & L. E.

"Little Giant" Will Spend $2,000,000 on Warehouse and Double-Deck Yard.

NO "L" LINE IN CARSON STREET

Another tunnel through Mt. Washington is planned by the Wabash. This is designed to extend from the West Side Belt line in West Liberty borough to the Wabash freight terminal property on the South Side, and to obviate building an elevated line in Carson street. Incidentally, it will overcome numerous difficulties that have been encountered, including the conflict with the Pittsburgh & Lake Erie railroad.

The Lake Erie itself will make extensive improvements in its warehouses and yard facilities in Pittsburgh. These will cost $2,000,000 and include a three-story freight house, about one-half longer than the present one-story house, and a double-deck freight yard east of Smithfield street.

Suggested by President Cassatt.

The latter, which will be an innovation here, was first proposed by President A. J. Cassatt of the Pennsylvania a couple of years ago. Its use by the Lake Erie is said to be the direct cause of the Wabash looking toward a tunnel route instead of the elevated line. The two properties adjoin and the Wabash has been restrained from proceeding with the building of the elevated roadway by the Lake Erie because of its novel plan.

The tunnel proposition is a gigantic one, but it is said to be more sensible and more feasible than the steel elevated structure in Carson street. It will cost more to build the tunnel, but "fixed charges" for repairs will not be so great in coming years. The estimated cost is put at $650,000, without the outside roadway.

Longer Than Present Tunnel.

The tunnel will be about the same length as the Greentree tunnel, which is 4,850 feet long. The present Mt. Washington tunnel is 3,320 feet in length.

For this new tunnel route, the line is proposed to start from the West Side Belt line tracks in West Liberty borough, just below the old Bell tavern, and to run thence around the West Liberty hill to the southerly side of Mt. Washington. Emerging on the city side of Mt. Washington at a point between South First and South Second streets, it would cross Carson street by an overhead bridge, and thus reach the freight warehouse and yard site just east of the Lake Erie's freight yard. The tunnel line would have a grade of 2 per cent, except for the incline from the elevation immediately within the yard.

Douglas Suggests Tunnel.

The tunnel idea for reaching the yard and thus obviating the difficulties to be met in the Carson street elevated line, is said to have been suggested by Consulting Engineer H. T. Douglas of the Wabash. It is not unlike the proposition of the West Side Belt people a couple of years ago, to build a line from the West Side Belt road through a tunnel, crossing the Monongahela river at an elevation of 80 feet and reaching a proposed passenger terminal just beyond the "hump" in Pittsburgh.

In view of the recent expression by President F. A. Delano of the Wabash lines east of Toledo, to the effect that all attention must be centered at once on the work for giving Pittsburgh shippers the facilities that were promised, which work was to include the connection with the South Side warehouse and yard, the tunnel proposition and its likelihood of being carried to completion are of more than usual interest.

Double-Deck Freight Yard.

The Pittsburgh & Lake Erie's plans for a double-deck freight yard have been prepared by the engineering department and approved for construction. Had not other important work occupied the attention of the officers this summer the im-

JAPAN MAKES A CONCESSION

A Dramatic Moment Is Reached at the Portsmouth Conference.

WORK OF PRESIDENT

"Modifications" Include Proposition to Divide the Island of Sakhalin.

M. WITTE NOT RECONCILED

[By Associated Press to The Gazette.]

PORTSMOUTH, N. H., Aug. 23.—The Japanese plenipotentiaries at the conclusion of the afternoon session today of the peace conference threw the cards upon the table. It was a dramatic moment—the moment to which all previous proceedings of the conference had led. The protocols involving agreement upon eight of the 12 conditions originally presented by Japan had been signed. One side or the other must make a move or the plenipotentiaries had reached the parting of the ways. The adversaries faced each other across the table. Of course, it was well understood what would happen, but that it a way only made it more dramatic.

Figuratively President Roosevelt suddenly entered the conference room. M. Witte sat silent and the move in the great diplomatic game passed to Japan. Baron Komura in a few words explained that Japan in her great desire for peace was ready to make certain "modifications" of the original articles in the hope the Russia could find it possible to accept them. He then presented in writing to M. Witte the compromise proposition which President Roosevelt had suggested.

The Offer of Compromise.

It was specific and it followed the lines outlined in these dispatches. It offered to withdraw article 9, providing for the payment by Russia of Japan's bill for the cost of war, on conditions that Russia would accept article 5, which provides for the session of the island of Sakhalin, so modified as to include an arrangement for the purchase by Russia of the northern half of the island for 1,200,000,000 yen. In addition it offered to withdraw entirely articles 11 and 12 (surrender of the interned warships and limitation upon Russia's sea power in the far east.) It was the president's compromise and M. Witte knew its contents as well as Baron Komura. The question of whether he had been "bluffing" was put to the test.

Without a moment' hesitation M. Witte explained that the modification proposed was merely a sham, a diplomatic attempt to ask Russia to pay war tribute under another name. He could not accept it. He told Baron Komura Russia wanted peace. She had given the proofs in accepting every article involving the issues upon which the war was fought, but she could fight, and money for tribute she would not pay, not a kopeck. He asked a withdrawal of all demands for tribute. And so the plenipotentiaries separated to meet again on Saturday, ostensibly to permit M. Witte to place in writing, as the rules of the conference require, his reply to the Japanese compromise proposition. In reality the adjournment over the two days was to give each side an opportunity to consult its government for the last time.

Peace Outlook Is Black.

The outlook is black, many believe it was never so black as tonight. The Japanese are not talking. Indeed, tonight they appear to be more taciturn and more resolute than ever. The only possible line of further Japanese concession is considered to lie in the direction of the diminution of the amount of the purchase money demanded for the north half of Sakhalin. The decision rests, therefore, as it has from the first, with Russia. Unless the emperor agrees to yield between now and Saturday, the end is likely to come on that day. And the indications from Peterhof, instead of raising the chances of a change of heart on the part of the emperor, seem to indicate even a firmer determination to yield neither territory nor indemnity, sugar-coated though the latter may be.

The long instruction received last night, while not a reply to the communication

FIRE BELL RINGS SALUTE TO THIS BRIDE AND GROOM

Hundreds of Alleghenians Are Alarmed Until They Discover That Happy Welcome and Not Fire Is Cause of Clanging Notes.

Dong—Dong—Dong—Dong. A furious carillon of bells smote the air from the big dome on Friendship engine house, Allegheny, last night, shortly after 8 o'clock. Bang—Bang—the din continued. Hundreds of persons sitting on their doorsteps muttered "still alarm," for the sound of no other bell in the city was heard.

From every direction rushed children, screaming in their excitement and the expectation of seeing the crack fire company "hitching up." Men living in the streets adjacent to Arch and Jackson, trotted along in their slippers to the corner to have a look. And still the bell kept ringing. The whole was alarming.

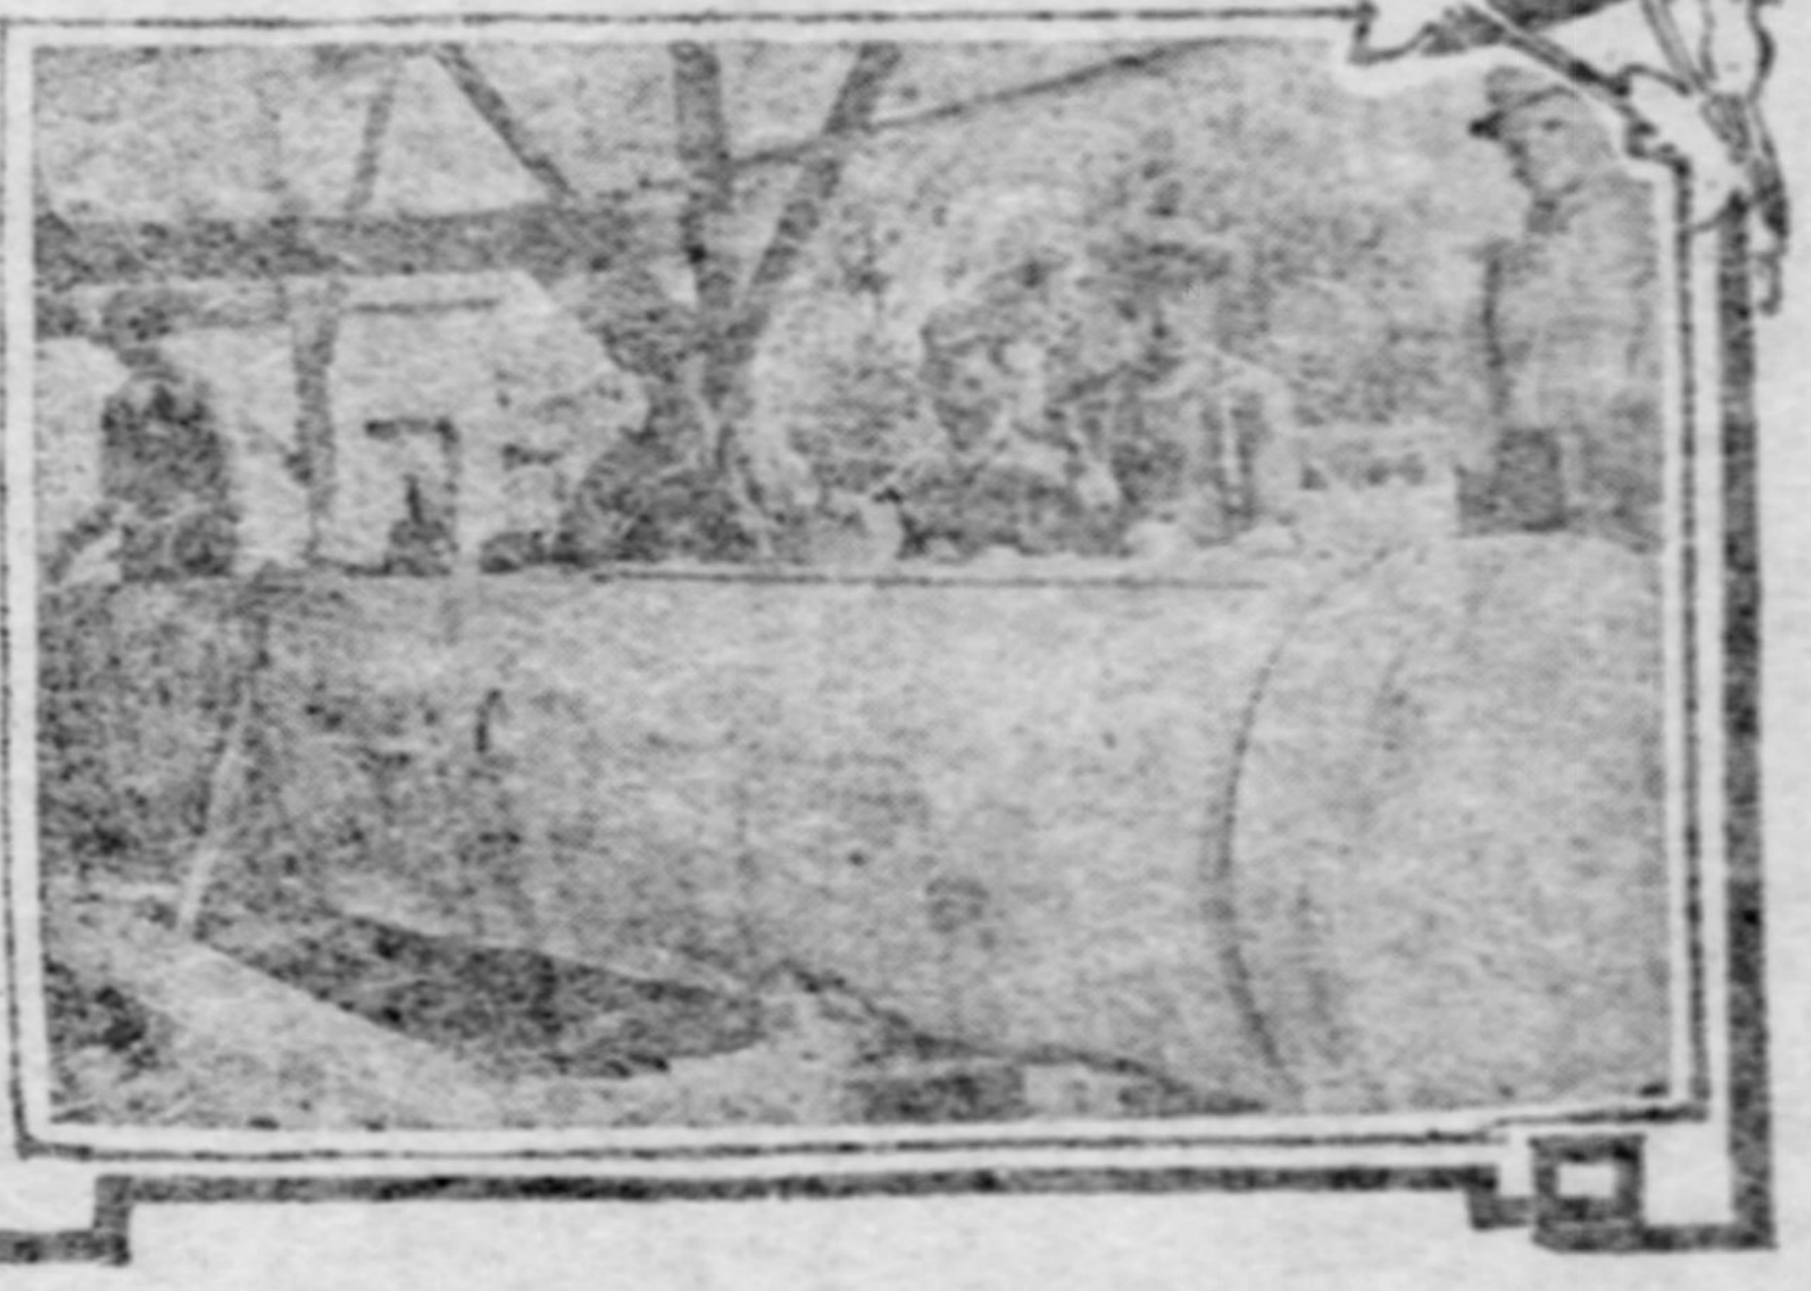
The engine house was empty of men and horses and only the shining apparatus occupied the building. Down Arch street, at the corner of Sampson, a strange cavalcade was approaching. Surrounded by dancing horses of the department a carriage proceeded slowly up the street. Mounted firemen bowed and raised their hats to the occupants of the vehicle and a mob of children flanked and brought up the rear of the procession.

In front of the engine house the crowd learned the cause. Hoseman John A. Elcessor had returned with his bride. She was Miss Emma Holfer of Rochester, N. Y., and the two were married there yesterday afternoon. Fire Chief John K. Hunter, whose headquarters are at No. 3, put up the joke and arranged for the noisy welcome. Elcessor and his blushing companion were almost overwhelmed with the reception they got, but he was game and asked everyone up to his home at 216 Jackson street.

When he arrived there with his clattering escort he found his home brilliantly lighted. Chief Hunter and Mrs. Hunter were at the door, as well as scores of his friends. Elcessor found himself and his wife guests in their own home. Then came the brass band, engaged by the Lahugh Hunting and Fishing club, of which the groom is a member. A feast had been prepared, and the festivities commenced inside the house, while outside several hundreds of boys and girls tooted horns, shook cowbells, and beat upon dozens of old kettles and tin basins.

"I've been around this neighborhood for 45 years, but I never heard such a racket in my life," remarked Chief Hunter, as he took a peek into the street to estimate the number of uninvited guests who offered their congratulations so noisily to the two who had been made one.

Rounding Great Monolithic Columns at the Institute



One of the columns almost finished.

GREAT COLUMNS NEAR A FINISH

Massive Supports for Enlarged Carnegie Institute Are Nearing Completion.

A score or more of workmen are now busily engaged in rounding and finishing the huge monoliths which as columns will grace the front of the enlarged Carnegie institute.

These great stones are exceptional in size, their large proportions harmonizing well with the immense scale on which the whole structure is being built. The monoliths will be about 30 feet long and their greatest thickness will be over two feet.

The pictures presented herewith give an idea of the work now being done. The stones are Ohio sandstone and were received, as is usual, in the rough. One picture shows the stone as it arrived, still square. Another of the columns lies near by and its appearance shows the work of rounding it well started. The other photograph portrays the column rounded and nearing completion, ready to be swung into place.

There is an army of men at work on the institute now and in every place where work can be done in advance of the completion of the outside walls, the builders are busy. The institute building is expected to be ready for use at the Founder's day exercises a year from November.

SUBMARINE PLUNGER SHOWS DIVING POWERS

Makes Three Dips in Presence of Large Audience, Including Mrs. Roosevelt.

[Special Telegram to The Gazette.]

OYSTER BAY, N. Y., Aug. 23.—Lieutenant C. F. Nelson gave the sub-marine Plunger a tuning up this morning off the Sewanhaka Yacht club landing, before a good-sized audience on steam yachts, launches and other boats. Among the spectators were Mrs. Theodore Roosevelt, her daughter Ethel and son Archie, on board the Dart.

The Plunger dived three times. Everything was found in perfect working order. Lieutenant Nelson said after the morning's manoeuvers that he had no idea what tests would be required of the Plunger here.

While the submarine is in port, her officers, Lieutenant Nelson and Lieutenant Shapley, the latter commander of the submarine Porpoise, live on board the president's yacht Sylph. The men have their quarters on the Apache to which the submarine is made fast.

YELLOW FEVER DEATH RATE IS DECREASING

Condition Is Improved at New Orleans, Where Five Cases Are Fatal During the Day.

[By Associated Press to The Gazette.]

NEW ORLEANS, Aug. 23.—The yellow fever situation apparently improved in New Orleans today while the scourge is reported to be gaining renewed energy in Louisiana, outside of New Orleans.

Today the number of yellow fever deaths fell to five from nine yesterday, while only ten new disease centers were reported today, as against 21 yesterday. There were four fewer new cases reported today than yesterday. The number of cases under treatment in New Orleans gradually grows fewer in spite of the large number of new cases reported each day.

In a report tonight Dr. Stark, state health officer at La Fourche, says that Dr. Devron reported to him today that up to date he had found 170 cases of yellow fever and 200 cases of dengue at Leeville, and conditions were such that help was needed immediately.

CHOKES ON HER FIB—COUGHS UP HER FINE

WILKESBARRE, PA., Aug. 23.—(Special.)—Mrs. John Jenitz, who was arrested for drunkenness and taken before Burgess Jenkins of West Pittston today, was seized with a fit of coughing while declaring that she was too poor to pay the fine and that she did not have a cent. During the coughing spell she spat out two ten-dollar gold pieces, which she had hidden in her mouth. She paid the fine.

Policemen Save Two Boys.

Officers Patrick Manion and Philip Eckert, assisted by F. K. Wright of Forbes street, a civilian, rescued two small boys from drowning in the swimming pool at Lock No. 1 yesterday afternoon. David Abraham, aged 9, of Roberts street, and William Ford, aged 6, of Tustin street, had been bathing near the shore when the "rollers" of a passing steamer carried them out.

WAN TA HSIA IS READY TO NAME THE CHINESE PRICE

Will Lift the Boycott If the United States Will Lift the Bars—Cotton Planters Ready for Anything to Save Their Market.

[By Private Wire to The Gazette.]

WASHINGTON, Aug. 23.—Wan Ta Hsia, special commissioner of the Chinese foreign office, is in Washington for the purpose of arranging with this government the terms of a new treaty. Today, accompanied by Sir Chentung Liang Cheng, the Chinese minister, he called at the state department and conferred with the acting secretary of state, but did not accomplish anything more than to present his credentials. Later he will assist the minister from his country in the negotiations which have been under way for some time.

Although Mr. Wan does not say it, he is here to fix the price that China demands for calling off the Chinese boycott on American goods. Ever since he left Pekin on this mission the lines have been drawn tighter by the forces of which Wu Ting Fang is supposedly the head, and now the commercial interests of this country have begun to howl for relief. Not a mail but brings to the state department from some section of the country an urgent plea that some means be found by which the embargo upon American goods, placed there by the Chinese merchant guilds, may be removed.

Estimates of the loss to the business interests of this country, if the boycott continues, run into the hundreds of millions. Mr. Wan is here to tell the United States that this vast sum can easily be saved and the channels cleared of any obstacles, if Uncle Sam will pay the price. That price is a modification of the terms of the Chinese exclusion act. The bars must be lowered to merchants, students and travelers, though it is not demanded that the coolies be permitted to come here to compete with American labor.

It was thought when E. H. Conger, former minister to China and later ambassador to Mexico, was called home he would be sent to China to help settle the trouble. But if the president offered Mr. Conger such a mission, he declined it, as soon after his visit to Oyster Bay he announced that he had no intention of going to China. It is possible, however, as the situation grows worse, that he may be induced to change his mind and undertake the task of cancelling the boycott. His long residence in the orient has equipped him admirably for dealing with the wily Chinese. Meanwhile, Wan Ta Hsia, special commissioner, will remain in this country, endeavoring to extract the price of peace from this government.

CINDERS BURN FOUR LABORERS

While Unloading Car in McKeesport It Overturns and Dumps Contents on Them.

While emptying cinders from a car in the yards of the National rolling mill in McKeesport yesterday afternoon, the car upset and four laborers, all foreigners, were badly burned. The injured are:

GEORGE SHUSNO, aged 25; burned about the back, arms and right leg.
MICHAEL LUCOTZ, aged 17; back burned.
GEORGE PARLICK, back and arms burned.
VINCINNES MONTI, aged 22; right shoulder, arms and foot burned.

The men were employed in making foundations and were taking the hot cinder away in wheelbarrows. While at the side of the car it suddenly tilted over and the cinders rolled down over the men. They ran screaming away from the car, trying to pull off their clothes and the cinders which were burning into the flesh.

After having their injuries dressed at the emergency hospital, they were removed to the McKeesport hospital. None is thought to be fatally injured.

FIRST ARREST IS MADE.

New Yorker Charged With Defrauding the Government in Cotton Leak Case.

SARATOGA, N. Y., Aug. 23.—(Special.)—Frederick A. Peckham of New York, charged with defrauding the government in connection with the leak in the department of agriculture cotton reports, was arrested this morning by United States Marshal Belden.

Peckham was arraigned before a United States commissioner, who fixed bail at $12,000. He was unable to furnish bail.

PANAMA MERCHANTS TO FIGHT NEW ORDER

PANAMA, Aug. 23.—A permanent committee of three has been appointed by the merchants here to seek a modification of the arrangement establishing commissariats in the canal zone. This committee will present to Gov. Magoon a statement showing the losses merchants are likely to suffer and will endeavor to obtain an equitable readjustment of the matter.

DISCOVER OIL IN CITY LIMITS

Warren Excited Over Find of Liquid in Heart of Densely Populated Section.

[Special Telegram to The Gazette.]

WARREN, PA., Aug. 23.—South and Carver streets are alive with interest today as the result of a sensational strike of oil. The pool was discovered at a depth of 17 feet. Tonight there are a dozen producing wells and under torchlight more are being sunk.

Charles Haggstrom, the discoverer of the new "field," has been pumping his well day and night. Haggstrom sunk a well in his kitchen and worked it quietly until neighbors discovered the well and began drilling wells of their own. The maximum depth at which oil can be produced is 21 feet. The field is on what is known as the "East Side flats."

Property is rising in value tonight and another day will see a well-developed oil boom.

The Wilburne Oil Company operates a large refinery a block distant and has been drilling a well. As a result they have an excellent producer at 20 feet. Every well drilled thus far is a producer. The theory favored by oil men is that the seepage from refineries has accumulated a pool and it is this pool that has been tapped.

LACK CHRISTIAN SPIRIT.

Successor of Dwight L. Moody Lays Severe Strictures on American Churches.

NEW YORK, Aug. 23.—A criticism of the American Protestant churches was voiced today by the Rev. G. Campbell Morgan, D. D., who has been working in the late Dwight L. Moody's place at Northfield, Mass. When on the point of sailing for Europe on the steamer Baltic, Dr. Morgan said:

"The American church does not seem to be much more than a social organization now. Its members spend more time developing along social lines than they do along spiritual lines. What the churches want is more of God and less of dress and social position; more of the spirit of the Master and less of a strife for place and money, and more religion by example and life than by preaching and talking."

NOISY CROWD NAMES BERRY

Indorsement Causes a Boisterous Split in Prohibition Convention.

SPEECHES ARE BITTER

Jeers and Hisses Are Given Democratic Candidate for Treasurer.

JUDGE STEWART SLIGHTED

[Special Telegram to The Gazette.]

WILLIAMSPORT, PA., Aug. 23.—After a fight which lasted for four hours, in which jeers, hisses and interruptions marked its progress, and which finally ended in a split, the state Prohibition convention this afternoon indorsed the candidacy of William H. Berry for state treasurer, but refused the same honor to John Stewart for justice of the supreme court.

The fight against Berry was led by H. T. Ames, a Williamsport attorney, chairman of the Lycoming county delegation and a candidate on the Prohibition state ticket last year. He went down with colors flying, bitter and uncompromising to the last. He refused the nomination for supreme court justice by the convention because, as he explained, he would have to appear on the same ticket with William H. Berry. He refused to act as a member of the reception committee which met Mr. Berry at the train tonight, flung defiance at the convention by declaring that he would not even vote for him, and then smiled grimly when the deciding vote of 120 to 29 in favor of Berry was announced.

Silent About Weaver.

But the convention was notable in other respects. During the day it raised $5,000 by popular subscription to pay campaign expenses. It also maintained silence on the subject of Mayor John Weaver's efforts toward reform in Philadelphia. The main interest of the convention was centered in its selection of candidates for state offices. A. A. Stevens of Blair was permanent chairman, and his opening address stamped him as a Berry admirer. Capt. Marquis of Lawrence county, who was introduced as the man who had given $57,000 to help the cause of Prohibition in the state, then undertook, with the aid of Mrs. Ellen Law, the Hon. M. T. Fanning and Chairman Stevens, to raise $5,000 for this year's campaign. Venango county pledged $500 if $5,000 were raised, and at 4 o'clock the desired amount had been subscribed.

An "open parliament" or free discussion began the afternoon session at 2 o'clock. Among the speakers was the Rev. R. A. Elwood of Wilmington, Del., who was loudly applauded when he gave a vigorous boost to the Berry cause.

Mixed Up in Lynching.

As he concluded W. C. B. Turner of Bradford county, a tall young man with a face like Edwin Booth, rose on the middle seats of the hall and said:

"I don't want to say anything unkind, or do anything to hurt anybody's feelings or mar the harmony of this convention, but, if I am not mistaken, the last speaker is named Elwood of Wilmington, Del., and he was mixed up in a negro lynching case down there recently. I think the Berry movement is pretty hard up for someone to boom it when it has to go outside this state to get such support."

A hush fell over the assemblage, but in an instant Chairman Stevens diplomatically declared the speaker out of order.

The first skirmish of the day came after the committee on resolutions had presented the platform through its chairman, Homer L. Castle of Allegheny. The Rev. D. S. Sherry of Delaware county placed the name of William H. Berry before the convention. Homer L. Castle of Allegheny seconded the nomination and defended Mr. Berry from the charge that he was a renegade because he had left the Prohibition party nine years ago on the free silver issue.

Ames Makes a Protest.

H. T. Ames of Williamsport in an impassioned way said:

"The name of William H. Berry, a Democrat, has been placed in nomination before this convention. What do we do if we follow the leadership of this man? We say to the 28,000 loyal Prohibitionists in this state that there is not a man in our ranks who can lead our hosts to battle. He's a Democrat and I protest against his nomination. I place in nomination the name of Dr. Charles W. Huntington, as true an American as ever lived. This man Berry is owned by the Democratic party, which is controlled by Col. Guffey and also by Jim Hall of the region west of us, who is the boss grafter of that region and carries his party and all its officers in his hip pocket. If Berry is elected he can't get a bond for the treasurership unless he gets Democrats to go on that bond."

Finally Called to Order.

Delegates were on their feet, hisses, cheers and general confusion ensued and finally the chair had to order Mr. Ames to keep his seat and maintain order.

Attempts to indorse John Stewart for supreme judge failed after the delegates from Cumberland had been catechised as to whether Mr. Stewart was a church member, a total abstainer and an upright judge. An affirmative answer was given to each, but W. B. Gill of Westmoreland county was nominated.

It being decided to name only one candidate for the superior court bench, Homer L. Castle of Pittsburgh was selected by acclamation.

At the mass meeting this evening William H. Berry and Homer L. Castle accepted the nominations tendered by the convention. The state central committee at a late hour held a meeting and elected David B. McCalmont of Venango county as state chairman.

GENERAL MINER ON LEGAL RACK

Admits Imprisoning Taggart, but Says It Was for Good of the Service.

THINKS HE IS MENTALLY WEAK

[SPECIAL TELEGRAM TO THE GAZETTE.]

WOOSTER, O., Aug. 23.—The defense in the Taggart divorce case today received a solar plexus blow when Col. Miner was forced to admit he had not investigated both sides of the affair at Fort Leavenworth when he imprisoned Capt. Taggart, while Mrs. Taggart left the fort. This admission by the defense's most important witness is serious, as Capt. Taggart has charged a conspiracy on the part of Miner, Poore and Mrs. Taggart to imprison him while she and her children could get away.

When the court opened today Col. Miner was on the stand. The muster roll of Capt. Taggart's company for the month of July, 1903, was introduced in evidence in the morning and its report of Capt. Taggart's health for the month stated that he was sick in the hospital from July 1 to July 8 from disease contracted in the line of duty and that he was under arrest at the same time.

A letter was read in evidence. It was from Mr. Taggart to Miner, and in it Mrs. Taggart requested the colonel to take steps to see that Major Taggart was not allowed to communicate with her. Miner, in response to this, said that Mrs. Taggart made such a request but not by letter—she made it verbally.

"Didn't you agree with Mrs. Taggart to keep the major imprisoned until she could take the children and leave the country?" was asked Miner.

"I had an agreement with her but not exactly like that," replied Miner.

Attorney Stirling then took up a certified copy of the charges made by Capt. Taggart against Gen. Miner. These charges are now on file in the department of war. The charges are to the effect that at a dinner party in Fort Leavenworth Gen. Miner demeaned himself.

After the charges were read Stirling asked the general:

"On your visit to Mrs. Taggart on July first, what did she say as to the captain having beat and struck her at other times than the preceding night?"

"She said that it was not the first time he had struck her."

"How did Capt. Taggart's conduct strike you?"

"It shocked me and surprised me," replied Miner.

Gen. Miner was then called upon to identify the pledge signed by Capt. Taggart and in reply to questions said that upon receipt of this pledge, properly signed, all proceedings looking forward to a court martial of Capt. Taggart were abandoned.

"General," said Stirling, "what truth is there in the charges of improper conduct on your part with Mrs. Taggart on file in the war department?"

"There is no truth in them, sir," replied Miner firmly.

Capt. D. Ryther took the stand and testifying in regard to his midnight visit to Mrs. Taggart, said that Mrs. Taggart sent him after some medicine for one of her children and on his return with it he met Howard D. Hallway. Charles Haffelginger, bartender at Koch's saloon, took the stand and said that Mrs. Taggart and her two boys ate at the restaurant over the saloon but that he had never sold beer to Mrs. Taggart nor to Rope, the boy accused of perjury.

The deposition of Miss Anna Berry, daughter of Judge Berry of Newport, was then introduced. She said of Mrs. Taggart: "She was never addicted to liquor and I never saw her smoke."

"What do you know about Capt. Taggart's habits as to drinking?" was asked in the deposition.

"He always took a drink when occasion required," was Miss Berry's answer.

WANTS THEM ALL UNDER ONE HEAD

MANILA, Aug. 23.—The report of Maj. Gen. Corbin, commander-in-chief of the United States army in the Philippines for the fiscal year 1905, in part says that greater efficiency, harmony and economy could be obtained if the division commanders were members of the commission and in addition to their other duties, performed those of the secretary of military affairs to the governor general, thereby placing all the military forces, army scouts and the constabulary under one directing head.

COUNTRY STILL HAS ITS ENEMIES

Vice President Fairbanks Warns New Yorkers Against Those of Today.

NOT ALL HAVE GREAT FLEETS

[BY ASSOCIATED PRESS TO THE GAZETTE.]

OGDENSBURG, N. Y., Aug. 23.—In the presence of Vice President Fairbanks veterans of Northern New York united with Ransom post Grand Army of the Republic here today in unveiling a beautiful monument in Liberty park, commemorating the patriotism of soldiers of the town of Oswegatchie who fell in the civil war. After the military parade the dedicatory exercises were held at which Vice President Fairbanks said:

> I bring you the cordial greetings of President Roosevelt, who greatly regrets his inability to join with you in the dedication of this monument to its exalted purpose.
>
> This monument had its inception in a noble, patriotic impulse. It will stand as the symbol of the gratitude of a great people for the services and the sacrifices of brave men who more than a generation ago went down to the battlefield to preserve the integrity of the great republic. It will teach a great and wholesome lesson to the present and to future generations. It will recall the deeds of men in a supremely perilous hour of our national history, and it will emphasize the fact that men are honored most who serve best their fellow men.
>
> This memorial teaches a double lesson—valor, fortitude and patriotism in the merciless shock of war; amnesty, mercy and pardon in the tranquil way of peace. It stands in powerful advocacy of the equality of men under our institutions. The sword of the nation was drawn in order that the equality of men beneath the flag of the United States might become an accomplished, a living fact.
>
> It proclaims the everlasting truth that the rights of men upon the American continent cannot be trampled in the dust, that the rights of the humblest are as sacred as the rights of the most exalted.
>
> While we reverently pay homage to those who bore the heat of battle, we do not forget that we owe tribute to those who, in the days of national calm, preserved that which was won in the fury of the storm. The enemies of the republic do not always appear with fleets or with armies and with waving banners.

When the vice president had finished speaking thousands of his audience pressed forward to shake his hand.

The monument is a roman column designated "The Spirit of Liberty," standing 40 feet high, surmounted by a bronze figure of liberty and guarded at the base by war eagles.

MR. GARRETT POLITELY REFUSES TO JOIN EYRE

Says Some Harsh Things Concerning the Conduct of Affairs in Chester County.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WEST CHESTER, PA., Aug. 23.—Chairman Garrett, of the new Republican organization, today sent a letter to Chairman Lack of the Eyre organization declining his proposition for joint primaries.

Chairman Garrett said in part:

"In addition to the legal obstacles in the way of our consenting to join you in holding a primary election, there remains another insuperable barrier to a consummation of your propositions. It is notorious that for many years your organization has prostituted the sanctity and purity of the primary elections in Chester county to the level of the auction block. Voters have been bought and sold as articles of merchandise. Ballot box stuffing and false counting, in all the branches of subtraction, addition, multiplication and division, have been resorted to and used with impunity in counting for and against candidates, as the circumstances might require, to the end that the rights of the voter have been shamefully ignored and the will of the people defeated. It would be wholly inconsistent for us at this time to ally ourselves with your organization, and we must therefore respectfully decline your proposition."

It will now be a finish fight. Leader Eyre's indorsement of Mayor Weaver did not have the desired effect.

BREAK IN TICKET.

Philadelphia County List May Be Disrupted by Withdrawal of Lukens.

PHILADELPHIA, Aug. 23.—It was rumored today that at next Monday's meeting of the Republican city committee John B. Lukens will withdraw as a candidate for coroner and that Thomas Dugan, the present coroner, who was denied a re-nomination, will be placed on the ticket.

This is the first break in the county ticket since Mayor Weaver began his fight against the organization nearly four months ago. Opposition has centered on Lukens because of his prominence as a ward leader.

GIRL MEETS FATHER SHE THOUGHT DEAD

PARKERSBURG, W. VA., Aug. 23.—(Special.)—Miss Frances Lee almost fell dead in the street today when she met face to face and recognized her father who had been supposed to be dead for eight years. Leaving two motherless children he went to Tennessee, where he had employment and was not heard from again. Today he failed to recognize his girl. Soon after leaving home he had a fall which fractured his skull and left him without memory as to who he was or where he was from. A few days ago an operation restored his memory.

Costly Fair Ground Fire.

BUTLER, PA., Aug. 23.—(Special.)—In a fire of unknown origin which started this morning, 15 stables and five valuable horses were burned at the Butler fair grounds. The loss is estimated from $10,000 to $12,000. The horses burned were: Zeezie, Ozette and Roy D, belonging to Mr. Demarest of Kingston, N. Y.; Mamie M, so badly burned that she was killed, and a valuable road horse belonging to W. C. Laderer of Evans City.

Arrest Important Witnesses.

WASHINGTON, PA., Aug. 23.—(Special.)—Harry Dowden and his wife, who, it is alleged, were with Ida Neely on the night of the sixth of August at the spot where Clair Hamilton of McConnells Mills was murdered, were caught at McDonald and lodged in jail today. They have been dodging the officers ever since the night that Ida Neely confessed that she saw young Hamilton murdered.

Rojestvensky is Going Home.

ST. PETERSBURG, Aug. 23.—Vice Admiral Rojestvensky, in a letter to his family, says he expects to have fully recovered from the wounds received in the battle of the Sea of Japan by the middle of September, when, with the permission of the Japanese government, he will start for Russia.

Watch Was Not Stolen.

ELLWOOD CITY, PA., Aug. 23.—John K. Ball, whose watch was reported as having been stolen, stated today he lost his watch on one of the streets and never made the statement his pocket had been picked.

WILL BE NO EXTRA SESSION OF THE STATE LEGISLATURE

Another Wanamaker Fake Is Exposed by Republican Authority—No Present Necessity for Making or Unmaking Laws.

[BY PRIVATE WIRE TO THE GAZETTE.]

PHILADELPHIA, Aug. 23.—There will be no special session of the legislature this fall. It has not even been considered by the Republican leaders and they do not believe that any of the questions pending in the public mind would justify an extra session of the general assembly. This statement was made tonight by a man in position to speak authoritatively.

Rumors and reports of a special session, for the purpose of repealing the Philadelphia "ripper" and the enactment of other legislation for which the Republican organization here is pledged, including personal registration, reapportionments, etc., have been in circulation for some time. When the story was first published it received little attention, people regarding it as another Wanamaker fake. So it was, but the fake was revived daily by some of the insurgent organs controlled by Wanamaker, until now many people regard it seriously.

For the purpose of embarrassing the Republican state organization and helping to keep inflamed the public mind of Philadelphia, was the object of those who inspired the story of the special session. They know that the so-called Philadelphia "ripper" does not go into effect until April, 1907, and that it can be repealed by the next legislature if a repeal is demanded. Aside from this measure there is no legislation which prompts a local demand for an extra session.

CHESTER D. POTTER.

JAPAN MAKES CONCESSIONS

Continued From First Page.

of President Roosevelt given to M. Witte at the navy yard yesterday afternoon, was of a character to almost completely destroy hope that it will be possible for M. Witte to satisfy the Japanese demand. M. Witte himself has been quoted as saying that he would not, if ordered to do so by the emperor, sign a treaty involving the payment of a kopeck. But it must be borne in mind that M. Witte in these negotiations is not a free agent. He represents his emperor. If he were absolutely free this conference would not fail. He would make peace. He sympathises with the solution offered by the president, but his hands are tied and unless he receives an imperial command, he cannot move.

Russians Are Pessimistic.

Black as the prospect appears tonight, however, the failure of the negotiations is not certain. The Russian camp is pessimistic to a man, but they all know the quick and startling changes of front that sometimes take place at Peterhof. And there are factors in the situation which might affect one of those sudden and inexplicable changes which frequently astonishes Russia.

Private advices from St. Petersburg say that sentiment there, in Moscow and other large centers favors acceptance of the compromise. This may mean much. But the real hope still rests with President Roosevelt. He is resourceful. He has made another move. He has sent Ambassador Meyer direct to the emperor, and they were together, according to advices received here, for three hours today.

Mr. Roosevelt himself tonight may know more about how the emperor feels than M. Witte and be able to act upon the information conveyed to him by his ambassador. The report is industriously circulated here that Emperor William is responsible for the attitude of Emperor Nicholas, and everything is traced back to the meeting of the two emperors on board the Hohenzollern in the Finnish gulf. In support of this it is positively stated that after the interview M. Witte's instructions were made stronger and more unyielding.

President Appeals to Czar.

OYSTER BAY, N. Y., Aug. 23.—President Roosevelt's final effort to induce a cessation of hostilities in the far east is almost dramatic in its extraordinary interest. Through George Von L. Meyer, the American ambassador at St. Petersburg, he has made a direct appeal to Emperor Nicholas to permit the adoption of such measures in the pending peace conference as will terminate the war.

A long cablegram was sent to Ambassador Meyer by the president late on Monday. It contained instructions for representation in behalf of President Roosevelt, to be made directly to the Russian emperor. There is reason for the belief that those representations were communicated yesterday to the Russian envoys at Portsmouth through the president's messenger. As a result of the instructions he received, Ambassador Meyer had a special audience with Emperor Nicholas today at Peterhof palace. What conclusions were reached at that conference is not known here, as no intimation has been given of the receipt by the president of Ambassador Meyer's cabled reply. It is regarded as certain that every hour gained in the time of the conference makes for a peaceful solution of the differences.

President Gains Points.

Thus far the president has gained his points, one after another. It was due to his efforts that the conference did not break up finally last week and his further important suggestions prevented a final dissolution of the conference on Monday. Now he has carried his appeal for peace straight to the Russian emperor, an appeal, too, which can be said to have the positive support of the great neutral powers.

Final decision made by Japan through Baron Komura will rest with Emperor Nicholas. Even should it be rejected it is almost certain now that it will be succeeded by other propositions looking to an ultimate agreement of the plenipotentiaries.

It can be said that the conference will not fail of a successful issue because of any lack of proper and disinterested effort on the part of the president, and while he does not discuss the negotiations in any manner for publication, those who have talked to him reflect his increasing belief that out of all the bickering yet may come peace.

BISHOPS HOLD SESSION.

Chairman of Board of Bishops Was Decided at Meeting in Avery Chapel.

At the morning session of the Women's Home and Foreign Missionary societies of the African Methodist Episcopal Zion church in Avery chapel, Allegheny, yesterday, Mrs. R. P. Hood presided. Miss L. Lee conducted the devotional exercises. The question, "Is a separate and distinct organization of the home and foreign missionary societies of the church desirable?" caused a long and heated discussion. A vote on the question will be taken by the connectional council today.

At 3 p. m. the connectional council met and Bishop C. K. Harris presided. Bishop G. W. Clinton of Charlotte, N. C., was elected chairman of the board of bishops for six months, and Bishop A. Walters of Jersey City, N. J., for the same period. Bishop Clinton decided Dr. J. N. Abbey is secretary of the board of church extension and not Dr. R. A. Morrisey. The total receipts of the organization for the last six months are $9,337.26, according to the report of the Rev. M. R. Franklin, secretary.

Commissioners Finish Work.

ERIE, PA., Aug. 23.—The county commissioners of Pennsylvania concluded the business end of the state convention one day sooner than expected and had their last discussion this afternoon. Tomorrow they will go on a special train to Niagara Falls and then to their respective homes.

To Revoke Railroad Charter.

Millvale council last night decided to petition the state attorney general to revoke the charter of the Pittsburgh & Northern railroad so that the borough can tear up their tracks and pave the streets. This road, a narrow gauge one, is controlled by the Baltimore & Ohio and the track extends from Millvale to Evergreen.

WABASH TO DIG TUNNEL

Continued from First Page.

provement would have been made this year. This will be the first thing in next year's program of the Lake Erie. It will cost possibly $2,000,000, but the Lake Erie people feel that it is needed to meet the dremands for more room and greater facilities, and, as property cannot be secured at a convenient point, the plan to build an elevated yard over the present one east of Smithfield street has been approved.

There will necessarily be slight changes in the present yard trackage arrangement to accommodate the elevated structure. The two yards will have no connection. The second deck will be built on steel columns and steel girders, the floor providing at the same time a roof for the lower deck or present yard. The uper yard will not be covered.

Entrances to the Yard.

It will be reached from the Lake Erie tracks by way of an inclined steel structure at the south side of the freight house, crossing over Smithfield street by a bridge. The driveway entrance will be made from Smithfield street, almost opposite the Lake Erie's passenger station. The upper deck will occupy the Lake Erie's frontage of 250 feet in Carson street and 650 feet in Smithfield street.

The freight warehouse that will replace the present one will be a model of convenience, the best ideas of freight terminal buildings in this country being bettered. There will be eight or ten freight tracks running the entire length of the building, with adjacent platforms for unloading the inbound freight. This freight will be hoisted to the second floor on large elevators. This second story will be reached by an independent driveway off Smithfield street by a viaduct. After freight has been unloaded for 24 hours and is not taken away by the consignee, or when freight may be damaged and thus refused by the consignee, it will be hoisted on elevators to the third floor and stored until called for or until damages have been adjusted.

The outbound freight will be delivered from wagons and drays as at present on the first floor of the building through the interior driveways and platforms and through the exterior side doors.

The plan evades an incline grade for teams to pull heavy loads, as the outgoing freight will be hauled down to the first floor, as at present, while the inbound freight will be hauled out of the second story over the viaduct to Smithfield street.

An office building to accommodate the force of Freight Agent D. G. Hood will be entered in front of the new warehouse.

MANY VISITORS GREET THE PRESIDENT AT OYSTER BAY

Gen. Wood and Other Notables Are Entertained at Sagamore Hill.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

OYSTER BAY, N. Y., Aug. 23.—Gen. and Mrs. Leonard Wood arrived here from Washington at 5:46 o'clock this afternoon and are guests tonight of President and Mrs. Roosevelt.

The president and Mrs. Roosevelt entertained a party at luncheon today including Maj.-Gen. George W. Davis, former governor of the Isthmus canal zone; Francis E. Leupp, commissioner of Indian affairs; William Barnes, Jr., of Albany, N. Y., and T. H. P. Farr and Archer Harman, relatives of the Roosevelt family.

Later in the afternoon the president had a talk with the Rev. J. J. Curran of Wilkesbarre, Pa., president of the Catholic Total Abstinence union, concerning the industrial situation in the anthracite region. No details of the interview were disclosed.

The Rev. J. J. O'Neill, rector of St. Catherines Catholic church of Brooklyn, was presented to the president by Father Powers, rector of St. Dominics church in Oyster Bay.

Mrs. Roosevelt and a party of friends attended this afternoon a performance of "As You Like It," given in a grove not far from Sagamore Hill. The performance was a notable social event.

CLEAR UP JEWELRY THEFT.

New York Police Arrest Young Man Who Stole $6,000 Worth of Valuables by Tracing a Letter.

NEW YORK, Aug. 23.—(Special.)—The mystery surrounding the theft of $6,000 worth of jewelry on July 1, last, from the home of James Jackson Higginson, has been cleared by the arrest of a man calling himself Ralph Warner, who is an almost exact double of Edward Parks, a tutor in the Higginson household, who was arrested in connection with the robbery, but who, subsequently, was released from custody in Christiansand, Norway.

John Kadra, a Syrian youth of 19, now serving a sentence in the state reformatory in Concord, Mass., the confessed thief for whom Warner admits having disposed of the stolen valuables, has also been indicted.

HOTEL SERVANTS CAUGHT.

Ingenious Conspiracy by Which Big New York Hostelry Loses $200 a Day.

NEW YORK, Aug. 23.—(Special.)—Wholesale arrests of employes in the Hotel Astor were made tonight, and, according to statements made by Capt. Gallagher, confessions were obtained from several of the waiters and checkers showing that since last October the hotel had lost $200 a day through its help.

It is charged that systematic collusion has existed between the waiters, checkers and captains, and that the waiters have received 50 per cent of the proceeds and the captains and checkers each 25 per cent. Some made as high as $25 a day by the plan.

Causes Split in Congregation.

LATROBE, PA., Aug. 23.—(Special.)—A split has occurred in the Necksburg Church of God over the alleged actions of the pastor, the Rev. George M. Hulme. A meeting of the congregation was held behind closed doors tonight and was a very stormy one. The split occurred when the resignation of the pastor was asked for.

Mayors in Session.

TOLEDO, O., Aug. 23.—"Municipal Ownership" promises to be the most important question to be considered by the delegates to the League of American Municipalities, which began a three days' session here today. Mayor Dunne of Chicago will speak on the topic tomorrow, but it cropped out in nearly every discussion today.

ASSIGNMENTS FOR RETREATS MADE

Priests of This Vicinity Will Look to Welfare of Their Own Souls.

WILL RETIRE TO MT. ALVERNIA

Preparations for the annual retreat of the priests of the Catholic diocese of Pittsburgh have been completed. Two weeks will be devoted to the retreat, one section of the diocesan priesthood beginning their retreat on September 11, and the other on September 18. Parish work has to be conducted and sick calls must be made, despite the retreat, and for that reason, while some of the priests are in the retreat, others will carry on the regular duties.

The annual retreat, which will be held at Mt. Alvernia, Millvale, is for the purpose of giving the priest the opportunity to look after his own soul, relieving him during that time of the responsibility for his parishioners' spiritual welfare. Bishop Canevin makes the retreat just like any other priest of the diocese. He is assigned to the first section.

The priests in retreat will arise every morning at 5 o'clock, attend the sacrifice of the mass and hear five sermons every day, each sermon lasting from three-quarters of an hour to an hour. The office, which every priest has to read every day in the year, will be recited by all the priests in choir, antiphonally. The master of the retreat, who preaches the sermons, will probably be a Redemptionist father. He will read mass every day and the priests will attend the service. During the week of retreat they will not themselves officiate at mass.

Beginning September 11 the following priests will hold their retreat:

Bishop Canevin, Rev. J. B. Duffner, H. McHugh, A. A. Lambing, J. Suhr, F. F. May, D. J. Devlin, Martin Ryan, P. J. Quilter, Philip Brady, Sr., F. Keane, M. A. Lambing, Thomas Devlin, C. A. BODY OF MISSING GIRL IS FOUND IN RIVER

Remains of Mary L. McQuillan Are Recovered at Duquesne. Other Sudden Deaths.

The body of Mary L. McQuillan, aged 23, of 93 Knox avenue, Knoxville, was found in the Monongahela river at Duquesne yesterday afternoon. Miss McQuillan had been ill for two months and emerged from her illness in such weakened condition that her mind was thought to have been affected.

Last Monday afternoon, while in a downtown department store with her mother, she ran off after announcing that she would kill herself. The next day her mother received a letter from her daughter, sent from McKeesport, in which she declared that she would never again be seen. Miss McQuillan was very popular in Knoxville and was a consistent member of the Third United Presbyterian church.

Harry H. McFarland, aged 23, of Emory street, Crafton, was found dead in bed in Goodwin camp, near McKees Rocks, yesterday morning. Death is thought to have been due to heart failure. He was employed in the office of the claim department of the Pennsylvania railroad in Union station, was single and is survived by five sisters.

William Flood, aged 43 and married, of 3328 Mifflin street, a switchman in the yards of the Carbon Steel Company in Thirty-second street, was killed yesterday afternoon in the yards of the company by being buried under six carloads of coal which jumped the track. It required an hour's work on the part of 300 shovelers to get at the body, which was crushed beyond recognition.

Joe Komonick, aged 32 and married, of 9 Irwin street, was killed at the South Thirty-fourth street crossing of the Pittsburgh & Lake Erie railroad yesterday afternoon. He was working under a wrecked car which was held up by jacks when an engine hit the car, dropping it upon him.

William Kyle, aged 45 and married, of Coal street, McDonald, was killed in the Jumbo mine of the Pittsburgh Coal Company by a fall of slate yesterday morning.

J. W. Parker, a lineman employed by the Bell Telephone Company, died in the McKeesport hospital yesterday from injuries received several days ago when he fell from a telephone pole in McKeesport. His skull was fractured. Parker lived in Berkeley Springs, W. Va.

POLICE NEVER WEAR UNIFORMS

Controller Brown Discovers 16 Men on Allegheny Payrolls Wearing Civilian Dress.

CAMPBELL WILL NOT RETURN

The attention of Controller James Brown of Allegheny, has been called to the fact that a continual infringement of the charter act under which Allegheny is governed, is being carried on in the department of public safety. At present there are 16 patrolmen doing daily duty in the city who do not wear uniforms and never have worn any. This is contrary to a provision of the charter act which reads:

> The department shall make suitable regulations under which the officers and members of the fire, telegraph and police force shall be required to wear an appropriate uniform.

This paragraph is taken from Article I, Section I of the charter, defining the duties and powers of those in the department of public safety. Apparently it has never been familiarized by the Allegheny police officials and its discovery has caused a stir.

It is only since July 1 that such a large force of special patrolmen have been on duty. Under the administration preceding that of Mayor Wyman only two such officers were kept on the payroll. One worked east and the other west of Federal street. Frank Lee and Rudolph Renter have occupied these positions for almost 20 years and the system seems to have been satisfactory during this period.

What Do They Do?

Since Director Scandrett added so largely to his force, the question is often heard in Allegheny:

"Where do all these policemen in plain clothes spend their time."

Controller Brown wants to know the answer, and it was this query that aroused him to take some notice of the fact that almost a score of policemen were about the city wearing civilian dress. This does not please Brown and he will likely make some declaration when the payrolls are sworn to within the next week. All these men appear on the payroll as patrolmen, and Brown says they should, as such, be subject to all conditions under which the regular bluecoats operate.

It is the opinion of the controller that uniformed officers would not go into places that are frequented by men wearing civilian habit. He says uniform aids discipline among policemen and keeps them and others alive to the fact that they are servants of the city and guardians of the law. The public, Brown says, recognizes an officer by his uniform, but could never guess that some of those now on the payroll are policemen.

The controller was confined to his home with sickness yesterday and a full interview with him could not be had. He has had the matter under advisement for several days, but says he will not announce his intention until the payrolls are presented to him by Director Scandrett.

Campbell Will Not Return.

There is a rumor in Allegheny that Director Scandrett is contemplating the reinstatement of Superintendent M. H. Campbell and Captain James Wilson, both of whom have been convicted of grafting. Scandrett refuses to enlighten the public concerning his plans in this respect. It is certain, however, that Superintendent Campbell will never again occupy the office he vacated after his trial last spring. Had he been acquitted he would have resigned at once, and the only reason he did not do this was because he refused to go out of office while under fire. He has been granted a new trial and is hopeful of acquittal. Should he be freed of the charges against him, he will resign at once and leave office with a clean record. This information is given by a person who is known as Campbell's closest friend, and cannot be doubted. He is disgusted with official life and would be happy to turn his back forever on city hall. Since his suspension he has had several excellent offers to engage in business, and is only awaiting the conclusion of his retrial to leave public life and return to his private business.

As to what is to become of Captain Wilson there seems to be little known. He is frequently about city hall and there is a belief it will not be long until he again dons his uniform and assumes command.

CITY METER MEN OUT ON STRIKE

Their Demand for Street Car Fare and Pay Every Two Weeks Is Refused.

THEY QUIT WORK IN A BODY

Mayor Hays has a new affliction which he must bear alone until Director Bigelow, Superintendent Shepherd of the water bureau and Controller Larkin return from their vacations. Thirty plumbers employed in the water bureau installing meters went on a strike yesterday and declare they will not return to work until the administration accedes to their demands. They claim they are supported in their contention by the plumbers' union.

According to the superintendent of the meter branch of the water bureau, the cause of the strike is the refusal of the administration to pay the men carfare to and from their homes to their work, amounting to 10 cents a day for each man, and also the refusal of the city controller to pay them every two weeks instead of monthly.

The men are paid regular union wages, or 50 cents an hour for eight hours' work a day. They have been employed to install meters in residences, business houses and industrial establishments, the city having purchased for this purpose about 5,000 meters about a year ago. A large proportion of these meters have been placed and Director Bigelow is getting ready to order another supply. It is his intention to install about 50,000 meters in Pittsburgh and to have them in operation generally by the time the filtration plant is working.

The superintendent in charge of the meters said yesterday that the plumbers have been paid their carfare from the city hall to their work, wherever it might be, but the men demanded their carfare be paid by the city from their homes to the city hall or to their work, if they should go direct there from their homes, instead of going first to the city hall.

"It would be impossible for us to pay the plumbers every two weeks instead of monthly, as we do now, because if we so favored the plumbers the whitewings, the policemen, firemen, clerks and every other city employe could and would demand the same recognition," said Assistant Controller Morrow. "If we paid semi-monthly we would have to double the force in this office. It may be that private firms pay their plumbers every two weeks, or possibly weekly, but we could not do this without changing the entire system in this office, not only for the plumbers in the water bureau, but for all city employes."

The trouble between the plumbers and the water officials has been brewing for three weeks. The matter was discussed by Director Bigelow, Superintendent Shepherd and Controller Larkin before they went on their vacations, but no decision was reached. The meter men waited for a few weeks longer and quit when all three officials are out of the city. A settlement will probably not be reached until they come back. The strike yesterday is the only case on record of a body of city employes, particularly under the present administration, voluntarily giving up their jobs.

MARSH AS A BUNTHORNE SEEMS TO BE A WINNER

Bevy of Pretty, Laughing Girls Accompanies Him When He Answers One Woman's Allegations.

Though Edward A. Marsh is held in high disfavor by one woman, he is evidently "the candy kid" with a number of others. It was made plainly evident that he still has quite a bevy of friends among the fair sex at the hearing Marsh had before Alderman McMasters yesterday, in which he was charged with false pretense by Mrs. Virginia Ray of 422 Cedar avenue, Allegheny. Six very attractive looking young women were at the hearing to give Marsh the aid of their encouraging smiles.

Marsh was represented by Attorney Ache, while Attorney Meredith Marshall looked after the interests of Mrs. Ray. Her testimony was that on May 19 Marsh borrowed $250 from Mrs. Ray, claiming to be an agent for a baking powder company of Detroit. She says that the next she heard of Marsh was in a letter from him while he was at Atlantic City, and that when she asked him to repay the loan he told her to "go and get it." Attorney Ache tried to have his client discharged on the plea that there had been no prima facie evidence to show that Marsh had been guilty of false pretense, but he was held to await trial at court. Bail was given for his appearance.

Accompanied by the bevy of pretty girls Marsh left the alderman's office, all laughing and chatting as though coming from a vaudeville performance.

NEGROES SAY THEY WERE NOT TO BLAME

F. H. Warren, publisher of the Detroit Informer, one of the three taken into custody at Luna park on Tuesday night when some trouble occurred at the Neapolitan cafe, was yesterday discharged by Magistrate E. C. Negley at the Oakland police station, as was also S. J. Miller, of Chicago. Mr. Warren said that he, Mr. and Mrs. Miller and a young woman friend of the latter, all negroes, sat at a table 45 minutes waiting to be served, and when they asked various waiters to serve them each said he could not do so. Later a man came to clear off the table at which they were seated and in doing so struck Mrs. Miller with a bottle, spilling the contents on her clothes. Mr. Miller resented this and the trouble followed. Mr. Warren said the party was not disorderly and up to the time the waiter came to the table was content to wait until the manager came so that they would learn what was wrong and why their order was not taken. Mr. Warren and Mr. Miller are attending the encampment of the colored Knights of Pythias.

Route of Labor Day Parade.

The general committee on the Labor day parade met in their headquarters at 412 Diamond street and decided upon the line of march, which will be as follows: Form at Fifth and Market street, out Fifth avenue to Grant street, to Diamond, to Forbes, to Craig, to Luna park. The balance of the evening was consumed in a discussion as to whether or not to award cash prizes in the athletic contests, and no decision was reached. The committee meets again next Wednesday night.

Third Estimate Is Paid.

The T. A. Gillespie Company has drawn $113,494 94 this month for work done on the filtration plant during the month of July. This is the third estimate paid out of the new filtration bond fund, $37,115 18 having been paid out of the original bond fund of 1900 in June. The total paid the Gillespie company since the first of May on the filtration job is $309,164 98.

GIVES BOND IN $300 FOR HEARING FRIDAY

Mrs. M. R. Jackson Appears in Police Court on Charge of Reckless Driving.

The star personage before Magistrate Moke at Central station yesterday was Mrs. M. R. Jackson of the Bellefield dwellings, who is charged with recklessly driving her automobile up Fifth avenue last Monday afternoon, much to the perturbation of John Woodward, a Leetonia (O.) youth, and the damage of his suit case and contents which he alleges the automobile knocked from his hand and then chewed up.

Mrs. Jackson was accompanied by J. Gilmore Fletcher, her attorney, and after a short discussion of the affair Magistrate Moke thought that a bail bond in the sum of $300 would be sufficient to bring Mrs. Jackson back for a formal hearing tomorrow morning at 10 o'clock. Attorney Fletcher signed a bond for that amount.

Special Officer F. D. Stonerod, who served the warrant on Mrs. Jackson came nearing sharing the fate of Johnny Woodward's baggage. Stonerod says the Jackson bulldog met him in the hall and would not even accept his card. The dog gallantly and persistently protected his mistress from the contaminating influences of Stonerod's warrant, and the latter had to finally be content with a message sent him by Mrs. Jackson that she would be ready to receive him and his warrant in 20 minutes. At the expiration of that time Attorney Fletcher had arrived.

Mrs. Jackson was formerly Miss Lenore Schoen, a daughter of Charles T. Schoen. On October 22, 1901, Miss Schoen married Dr. M. Roy Jackson at high noon in the Bellevue-Stratford hotel in Philadelphia, and the wedding was one of the most important social events of that season.

DAMROSCH COMES FIRST.

Popular Musical Conductor Who Will Open Coming Exposition Is a Great Favorite Here.

No more popular musical director could have been chosen to open the Exposition next Wednesday evening than Walter Damrosch, who, with his orchestra, will be in Pittsburgh on Wednesday morning for his 10 days' engagement. A delightful season of high class music is promised by Mr. Damrosch and his New York Symphony orchestra, a fine organization which plays with great musical comprehension, strict rythmic quality and well defined feeling.

Mr. Damrosch is now giving a series of concerts in Philadelphia and will come to Pittsburgh direct from the Quaker City. He is a leader who may be described by many adjectives—he is authoritative in the great symphonies which he knows so well; in opera, which he seems to feel and understand so minutely; in Wagner, which he reads perhaps better than any one else, and in the popular trifles, new and old, which he seems to vivify and color, so that each one becomes a cameo in tone and form. Best of all he has concert style which attracts and holds attention throughout a long program as the thousands of Pittsburghers who have heard him time and time again in Exposition music hall can attest.

One of the soloists to be heard with Damrosch at the Expo. next week will be the very young and talented pianist, Miss May Doelling. Miss Doelling is said to have an exceedingly musical touch and a masculinity in forceful passage work that is astounding in a girl of 17.

DAVIS FAMILY REUNION.

Aged Couple of Jefferson Greeted by 121 Descendents on 65th Wedding Anniversary.

Surrounded by their children, grandchildren and great grandchildren to the number of 121, Mr. and Mrs. David Davis, aged 87 and 84, respectively, yesterday celebrated the 65th anniversary of their wedding. The celebration was held in the orchard at the family homestead in Jefferson township, near West Elizabeth.

Mr. and Mrs. Davis were greeted with a golden shower, including coins and articles of jewelry. A big dinner was held under the trees. The couple has lived in the township for 35 years. The children present were: Mrs. James Gosney, Clairton; Charles Davis, Elizabeth; Mrs. William Penn, West Elizabeth; Mrs. Samuel Jester, Manow; David Davis, Elizabeth; Mrs. H. W. Dickerton, Dravosburg, and Mrs. George Pilgrim, of Camden, Pa.

M'KEESPORT WANTS FENDERS.

Crusade Will Be Started Against Traction Companies for Violating a City Ordinance.

McKeesport is preparing to start a fender crusade against the Pittsburgh Railways Company and other traction lines operating in that city. No cars in use in McKeesport are equipped with fenders and a city ordinance, passed in 1898, is being violated daily.

The ordinance provides for a fine of not less than $50 and not more than $100 for each violation. When Dr. R. J. Black was mayor of McKeesport he had crews arrested for running cars without fenders. They were each fined $50 and costs, which was paid by the traction company.

Veterans Hold Their Reunion.

IRWIN, PA., Aug. 23.—(Special.)—The survivors of Company 4, One Hundred and Thirty-sixth regiment, Pennsylvania Volunteers, met at Oakford park today. Those from Pittsburgh and vicinity met at Irwin and proceeded to the home of President John Brennamen at Jeannette. He is ill and the members went there to pay their respects. Crosby Gray of Pittsburgh read a memorial on the death of William Carson of Circleville, and Joseph Kerr of Pittsburgh, who passed away since the last reunion.

Hold Last Day of Practice.

SEA GIRT, N. J., Aug. 23.—(Special.)—The Pennsylvania rifle team spent the day in final practice at the longer of the ranges on which the National team match will be shot. The West Virginia team spent its first day of practice on the 800 and 1,000-yard ranges. The Ohio team professes to be well acquainted with the conditions. The team captains were in conference tonight with Brigadier-General W. P. Hall.

Protectory Boys See Luna Park.

Through the kindness of the management of Luna park 60 little boys who make their home at the St. Joseph Catholic Protectory for Boys in Vine street, visited Luna park yesterday and had a happy day seeing the sights there. The boys were in charge of Father Gerold and six brothers connected with the protectory. The boys were taken into all the shows and given a chance to test all the pleasure-making apparatus at the park.

The Rev. David Will Not Return.

The Rev. David P. David, pastor of the Main Street Welsh Baptist church, this city, who left in July for his native home in Wales to bring his effects to Johnstown, has been induced by his relatives to remain there and has sent his resignation as pastor of the local church. It has been accepted by the local congregation, but his successor has not yet been chosen.

Old Residenter Passes Away.

Death yesterday removed from Cambria county one of its oldest residents in the person of Thomas Wills of Loretto, who, on June 7th of this year, celebrated his 99th birthday anniversary. The deceased was born in Allegheny township, this county, and spent his entire life in that vicinity. He was known to hundreds of people throughout the north of the county.

Will Erect New Tube Plant.

The Pennsylvania Steel Tube Company, located now in Second avenue, Pittsburgh, plans to build a steel tube plant at South Monaca. It has purchased about 10 acres of land from the Colonial Land Company for a site. It is said that the work of erecting the factory will be started at once.

More Cases of Typhoid.

The Pittsburgh bureau of health yesterday reported 24 new cases of typhoid fever and one of diphtheria.

MARRIAGE HAS SOME SORROWS

Would-Be Groom Is Arrested and So Is One Whose Contract Had Expired.

WEDDED FOR ONLY 4 YEARS

Dezso Sizopothe of Romola street, Hazelwood, came near not being married last night. As it was he evaded all etiquette as laid down in "How to Behave" when he sat in jail for four hours yesterday afternoon with a marriage license in his pocket which was to have been applied in the evening.

Louisa Newman caused all the trouble. Louisa heard that Dezso was to be a groom and made information against him, charging fraud, before Alderman W. B. Armstrong in Hazelwood. She says he got money from her on false promises, one of which he was about to break. Dezso was torn from his bride and held up in jail in default of $300 deposit. When the sad news was made known in Romola street social circles the wedding guests at once became active and succeeded in raising a $300 relief fund. Last night Dezso was married and Louisa was not "among those present."

Is a marriage contract with a four-year limit clause binding, especially if it is made out in German? This is the very serious problem that will come under the consideration of our courts within the next few weeks if Mrs. Gustave Hessan of 918 Madison avenue, Allegheny, does not change her mind.

Mrs. Hessan and Gustave Hessan were married in one of the small provinces of Germany 18 years ago. Two years later they came to Allegheny, where they lived three years, after which Gustave left for Chicago, and entered the employ of Armour & Co. He visited his wife several times during the past 12 years, but never provided for her, while in the city directory she is declared to be a widow. Last Saturday Hessan made another visit to Allegheny and was arrested. He was given a hearing before Alderman William Lang in Allegheny yesterday afternoon on a charge of desertion and non-support. He produced a marriage certificate purporting to have been issued in Germany 18 years ago, showing his marriage to have been limited to four years, according to the law of the province. He said he lived with his wife five years, or one year longer than the contract called for, and that they parted without discord on the strength of the limited contract.

The alderman was inclined to discharge Hessan, and only held him after urgent pleading by Attorney Locke for the plaintiff.

BIG TRACTION DEAL IN NORTHERN COUNTIES

Charter Will Be Asked for Crawford County Railways Company by Unknown Interests.

Telegrams last evening from points in Northwestern Pennsylvania indicate that a traction deal of magnitude is in progress there. Advertisement is made of the intended application for a charter for the Crawford County Railways Company. The application states that the company is to operate in Crawford, Erie, Mercer and Venango counties. It is rumored that there will be an Allegheny county connection. The main office is to be in Pittsburgh.

The names in the application give no indication of the backers. Attorneys George M. Hosack of Pittsburgh and Harry McFarland appear as solicitors for the company. Mr. Hosack was out of the city last evening and could not be reached.

The completion of the deal to combine the electric lines in the Mahoning and Shenango valleys, as announced in Tuesday's Gazette, was connected with this plan, but this connection is not proved. The latter deal was financed by the Belmont interests, Myron T. Herrick and James Parmalee of Cleveland and Murry A. Verner of Pittsburgh.

It is expected the new company will take over a number of electric railway and light concerns in the counties named and unite them into one system.

HOGEL IS DISCHARGED.

Officer Who Caused Captain Frederick's Resignation Is Ousted by Police Trial Board.

Fifteen cases were considered by the police trial board yesterday morning, resulting in two dismissals, several suspensions and the imposition of a number of fines.

George Hogel, the sub-officer of the South Side station who brought the charges against former Capt. J. N. Frederick before Director Moore, was discharged. It was charged by Capt. Weber, who succeeded Frederick, that Hogel drank in a saloon on his beat. Albert Miller, a substitute from the station, was discharged for similar cause.

Patrolman Harry Goldman was suspended 30 days for allowing a prisoner to escape in the Bedford ball park, the latter claiming to be a councilman. Policeman Michael McDonough, charged with beating a civilian without cause at Penn and Highland avenues two weeks ago, was exonerated. Several officers charged with drunkenness while attending Polish weddings were leniently dealt with, Supt. Wallace declaring that the temptation under those conditions is very strong.

LEADING JURISTS MEET.

Lawyers from All Parts of the Country Gather at Narragansett Pier.

NARRAGANSETT PIER, R. I., Aug. 23.—Prominent jurists from all sections of the United States gathered here to attend the opening sessions today of the twentieth annual meeting of the American bar association. Included in the number were Justices White and Brown of the United States supreme court, and many professors of the various law schools connected with the great American universities. Conferences will continue through tomorrow and Friday.

As the first feature of today's session the president of the association, Henry St. George Tucker of Lexington, Va., delivered his address, paying especial attention to the most noteworthy changes in statute law on points of general interest made by congress and in the various state legislatures during the past year. This address was followed by the nomination and election of members and the presentation of departmental reports.

Old School Reunion at Bulger.

A reunion and picnic of the old teachers, pupils and directors of the Bulger school is to be held next Saturday on the old school grounds at Bulger. A jolly good time is anticipated. The prospectus bid those interested to attend and "renew old acquaintances, bring your luncheon and eat it in the woods once more." The old school day games are to be played and one of the principal features will be a game of ball between representatives of the days of 1837 and 1905.

Art Needlework Pieces from Various Climes.

The women of Pittsburg who are fond of doing fancy work as a pastime have exceptional opportunities presented them in our Art Needlework Department, Third Floor, West.

Here are to be seen and discussed and purchased, if you will, the handiwork from faraway Japan, from Russia, from Germany and France—even the peasants of Moravia and Croatia are represented in the showing. There are finished pieces and others, commenced and stamped, all ready for the hand of the novice.

One of the simplest styles of needlework is that of Cross-Stitch Embroidery—this work resembles much the simpler work of our grandmothers' time, and, as everything is marked, even to the coloring, it is very simple and easy to execute. It is a German pastime.

From Japan there is ready a new line of cushion tops, the designs being brought out by printing and appliquing. These can also be framed for wall decorations.

From Russia there is a great collection of quaint novelties in colorings which remind one of the altar decorations of the Greek Church—table covers, letter files and boxes for different uses. All handwrought work.

From France there are antique-looking pieces embroidered in heraldic designs—worked in wool and tinsel on wool canvas. Such useful articles as portfolios, magazine covers, etc.

Then there is a beautiful collection called "Nubechen"—this kind of embroidery might well be styled the art of applied design. The foundation materials are moire, silk, crystal silk and linens. The designs cover a broad field—velvets, felts, silk braids, satins and silks, even fine copper wire appliqued in a most artistic manner and combined with embroidery to form a pleasing whole. Where flowers are used, they are always conventionalized flowers. Further, every piece is a work of art, and no two pieces are alike, whether it be scarf, square or pillow cover. These are to be seen nowhere else in Pittsburg, and perhaps nowhere else in the country.

The new Hedebo embroideries in Kalborg, Odense, Nylorg and Copenhagen designs are also ready. A treat for admirers of finest needlework.

Above all, we would have women understand that our prices in this department are exceptionally low, both for the goods obtained in this country, as well as the goods brought from abroad.

White Dress Cottons for Little Enough.

Isn't 12½ c for 20c goods, or 18c for 35c goods, or 25c for 50c goods, little enough? Rather, we should say. And the gist of the whole matter is that white dress cottons are substantially staple throughout the entire year. Look at this engaging list and see the goods today.

An Autumnal Glance at Silks for Wedding Costumes.

The happy bride-to-be may be notionate about her wedding gown, or she may be content with something richly plain—in either case we will undertake to please her in every particular. There never was in this city a more sumptuous collection of wedding silks than we are now ready to introduce to prospective brides. There is a wide range of weaves, and, of course, white, ivory and cream are the approved trinity of colors, but for those who break over conventional rules we have a full line of evening colors, both for brides and bridesmaids' wedding dresses. Herewith in a brief way we present some of the bridal-silk numbers—

44-inch Aeolian, a yard	$2.50
44-inch Marquisette, a yard	$2.25
44-inch Luciole, a yard	$1.50
44-inch Crepe Meteor, a yard	$2.50 to $4.50

Thursday, August 24, 1905.

That the orphan is not friendless is proven by the story in our local news columns of the provision made for two former inmates of St. Paul's asylum. These young men have been brought up in the way they should go, and might be envied by many who have considered themselves more fortunately situated. It is a true story of human interest that will harm no one.

A new anesthetic was successfully used in a local hospital on Tuesday, the patient rallying after the operation without any of the unpleasant sequelae usually noted in surgical cases. The discovery of anesthesia half a century ago has often been described as the greatest achievement of medical and surgical science, though it is closely followed by the aseptic method. But if scopolamin hydrobromide sustains its early reputation it will command a place, also, in the front rank.

Controller Brown of Allegheny wants to know what use is made of the large number of "plain clothes" men connected with the Allegheny police force. His inquiry is not unnatural. Vice is notoriously prevalent on the North Side and is not visibly diminishing. Person and property are not more safe than on this side of the river, where the police superintendent declares he knows of unpunished violations of law. It will be interesting to know what are the functions of the men in plain clothes who are on the police payroll in such considerable numbers.

Mayor Hays, while acting as the whole administration, surely had enough to do without having a strike "on his hands," but that is what he has got. The plumbers who have been putting in water meters demand travelling expenses and payment every two weeks. This latter feature will not be agreed to by the controller, because it would increase the labor in his department, and he is not in sympathy with water meters, anyway. It is quite a problem for the mayor to wrestle with, while the water supply goes unmeasured.

After an unsuccessful attempt to prove J. Lee Plummer recreant to his official oath, the Post finally admits it does not understand the constitution, and has no other interest in the matter than the election of Democratic Candidate Berry to be state treasurer. This has been evident to Post readers from the first. Its pretense of high moral principles and "independent" Republicanism never served to conceal it more than an ostrich conceals itself by sticking its head in the sand. The Post is occasionally honest, but it is always Democratic.

Gen. Corbin's annual report gives evidence that Philippine conditions do not keep the army busy in the field. He has had time to consider many subects aside from fighting, or the forcible preservation of the peace. For example, he recommends that division commanders be made members of the commission, to give them occupation. He also recommends that presidential inaugurations at Washington be made the occasion for special ceremonies in the foreign possessions. He would have a salute fired at high noon of that day by way of impressing benighted natives of the islands with the importance of the day. This is a good suggestion. Time hangs heavy in army camps, no doubt, and the thunder of guns is to be preferred at all times to divorce court echoes of time-killing amusements.

Wan Ta Hsia, financial agent of China, has arrived in Washington for the purpose of taking up the negotiation of a new commercial treaty between his own country and this. Mr. Wan seems to have timed his arrival to coincide with the loudest complaints to the American government concerning the Chinese boycott. In San Francisco he explained the boycott would be removed if certain American concessions were granted. If Mr. Wan expected his mission to profit by the conjunction of circumstances he is doomed to disappointment. There will be no treaty negotiations while the boycott continues, and there will be no modification of the exclusion act. The president's order for courteous treatment of the privileged classes is ample remedy for the specific complaints made, and is about the only concession China can hope for.

A Berry Convention.

There is a vast difference between the Prohibition convention at Williamsport yesterday and the two Democratic conventions at Harrisburg. Yesterday's convention was not successfully bossed, it broke the slate, it refused to carry out the program prepared for it and it exposed the campaign of high moral pretense in the interest of William H. Berry. The Prohibitionists nominated Berry, for Berry's sake, after a bitter fight, and refused to indorse the candidacy of Justice John Stewart because he is a Republican.

A majority of the convention favored the nomination of Berry because Berry was once before a Prohibitionist candidate and because he is all the time antagonistic to the Republican party, to the protective tariff and to sound money. A respectable minority opposed his nomination because he has deserted the Prohibition party for a larger following in the party that nearly always opposes "sumptuary laws." Among the opposition was the gentleman favored by the convention with its nomination for supreme court justice, and he declined the nomination because he would "not go on a ticket with William H. Berry."

It is hardly necessary to say more. The exposure is complete. The principle of prohibition has been sacrificed to opportunism and specific enmity to Republicanism. The pedestal the Democracy was building for Berry has been smashed as effectually as Carrie Nation could have done it, and Berry stands, down on the wet ground, simply as the anti-Republican candidate for state treasurer, holding the motto: "To the victors belong the spoils. (We hope to be the victors.)"

Hope for Peace.

In the final instance the burden of refusing or accepting peace is thrown on Russia. Responsive to the suggestions of President Roosevelt, Japan has generously modified its demands, abandoning its insistence for indemnity and offering to sell to Russia the island of Sakhalin, captured and held by force of arms. This opens a way for Russia to retain its territory and to evade the direct payment of a war indemnity. The czar has an opportunity to negotiate an honorable peace, one that is not shameful in the eyes of this great republic or in the eyes of his royal neighbors in Europe. He has until Saturday to decide, and it may be hoped his advisers will make him understand this proffer is not an evidence of Japanese weakness, but the generosity of conscious strength.

M. Witte, chief Russian envoy, makes no secret of his approval of the new proposition. It is the last hope to prevent a renewal of carnage and destruction. Such renewal would mean to Russia a larger expenditure of treasure than the Japanese are likely to ask for the island and the almost certain loss of Vladivostok, the north Manchurian railway and a portion of Siberia. M. Witte fully appreciates these facts and his sovereign can hardly fail to realize the advantage of a graceful submission. This is the more likely because he must have been advised ere this that no money can be had from the foreign bankers for the purpose of carrying on his war. Russia might raise one internal loan, but not one sufficient to carry the war over winter.

For the part President Roosevelt has played in securing a concession from Japan and a delay in the proceedings that gives ample time for consideration, he is entitled to high praise. He intervened only at the moment when hope had practically been abandoned. His suggestion does him great credit. Foreign courts are disposed to commend his activity, and there can be no question that his own country will pay due tribute. Meantime the hope for peace is rising.

The City Highwayman.

It is an astonishing condition of modern life and law in the large centers of population that gives opportunity for such crimes as that committed in Chicago Tuesday evening. Two women, strolling along a fashionable residence street in the early evening, when all the lights were shining brilliantly, residents were grouped close by on verandas and passers were numerous, were boldly attacked by two highwaymen. One of the women was shot and killed and the murderer made his escape. Fortunately, cases of this bold and desperate nature are rare. They occur often enough in cities like Chicago to provoke serious inquiry into the police and court systems that are responsible for the safeguarding of life. It is not possible, perhaps, for the most perfect police system to prevent crimes of desperate character, but it would seem there is something radically wrong with a policing power that offers, under conditions of apparent safety, no remedy for so bold and desperate a crime as this latest Chicago murder. If criminals are bred in Chicago who do not hesitate to shoot down on the streets resisting victims of their assaults then Chicago's police and court remedies should be fashioned on lines sufficiently stringent to hold deterring terror for the murderous highwaymen.

The same remedy should be applied in all cities where bold crime is committed. For example, in the case of the Pittsburgh thieves on the hill, who knocked down a woman in her own house, but did not kill her. It is quite bad enough to have the stealthy midnight marauder and the ordinary sneak thief to contend with and feel that police protection is powerless to suppress them. When in the open and on the highways, or in broad daylight, the helpless citizen may be struck or shot down and the desperado make his escape it is time to make over our police systems or else give up the boast that our civilization contains a maximum of protection for human life and the pursuit of happiness.

New City Rules.

New rules for the government of the Republican party in Pittsburgh have been approved by the full committee on rules and will be submitted to the city committee next Thursday. There is little doubt they will be adopted by that body, as the proposed rules are uniform with those recently adopted by the Republican county committee. No action has been taken by the city committees of Allegheny and McKeesport to amend their rules, and it is pertinent to remind them of the fact.

The proposed new city rules are intended to remove such objections as have been made that candidates were not given equal opportunities, and to give every individual citizen full voice in the choice of candidates. Every change made looks to these things, proving once more the Republican party is the party of the people, and that it has the capacity to learn by experience. Under the new rules ample public notice must be given of suggestion meetings, every Republican voter is qualified to participate, the primaries are open to all aspiring candidates and the nominations will be made by majorities of the popular vote. They contain new provisions to safeguard the purity of primary elections and to prevent interference with the voter in the expression of his preference.

No fairer party rules were ever operative. They open the way for the selection of the best candidates by the people, in strong contrast to the methods of other parties in this city, which make hardly a pretense of consulting the voters in the preparation of tickets. They leave absolutely no excuse for any Republican to stray longer from the Republican fold. With the examples of rotten administration under fusion auspices daily before their eyes it is not probable that any honest Republican desires to remain out.

An Opinion in Brief.

Fresh from a tour of Europe, including a visit to the British parliament, the Hon. Timothy Drydollar Sullivan of New York is giving off his impressions of foreign and home institutions. The Hon. Timothy Drydollar Sullivan is a big man and a statesman of the Tammany school, member of congress by grace of the organization. He is a Democrat who does not believe the Constitution should intervene between friends, and in politics plays the game like his former co-worker, Big Bill Devery. In his conversation Mr. Sullivan is always positive and sometimes epigrammatic.

Municipal ownership of public utilities has attracted Mr. Sullivan's attention. He likes the idea. He does not intend to wait for the elaborate investigation of the civic federation to decide which side of the controversy he will espouse. In fact, Mr. Sullivan has already declared his belief in municipal ownership, and this is his ringing platform:

"With municipal ownership Tammany would remain in control for 100 years."

The Hon. Timothy D. Sullivan has said it right. Mayor Dunne of Chicago and Expert Dalrymple of Glasgow between them did not formulate as accurate an expression of the truth. There is the whole thing in a nutshell. Municipal ownership, political control, enlargement of the payroll and perpetual power. Whatever may be said of the Tammany school, it cannot be truthfully said it is not practical.

Kansas has experienced the hottest weather this summer in her history. The weather man out there has had such serious competition in the way of making things hot, that he had to do something to sustain his reputation.

From the surprisingly efficient character of that new anesthetic in producing deep sleep, we imagine the public safety department has been using it in connection with the car fender tests.

Police Supt. Wallace announces he will enforce the laws when he gets ready. As able an exponent of the present administration principle of how not to do things as Magistrate Moke.

Democratic candidates in the recent primary contest in Virginia now understand what Henry Watterson meant when he said: "Through a slaughter house to a graveyard."

When Chicago shall have discovered some means of managing her murderous thugs, it will be time enough for her to tackle the street railway management.

Mayor Hays denies that he will make an address of welcome to the state editors. He is too busy making speeches to the pass hunters.

The effort of the sultan of Sulu to break into the best American society at least has the merit of being by the way of the front door.

President Roosevelt will see the Plunger do its stunts today and may take a chance along with it, whereat the world is interested.

The chronic trouble hunter will have to look around for a new job. All the crops seem to have been saved, hopper full.

Virginia Democrats are out of one fight into another, and the chance of Lewis becoming governor increases.

Mayor Hays should endeavor to get the pass fiends to follow his example and take a nap.

There are a succession of splashes heard "on the banks of the Wabash far away."

Portsmouth, N. H., is showing signs of doing the "back off the map" stunt.

The police trial board keeps busy, and with cause.

The corn crop and the wheat crop,
And the cotton crop are great;
While the crop of campaign liars
Will be big, if a little late.

A PREACHMENT BY THE QUIET OBSERVER

Concerning School Directors, Their Responsibilities and Duties.

By ERASMUS WILSON.

What are school directors for?

Have you ever asked yourself this question, or talked with your neighbor about it.

Maybe you think the office too insignificant to bother with yourself, and willingly allow it to go to whoever will take it?

Or do you consider it a purely political office and vote for the man on your party ticket, regardless of his fitness for the position?

It is generally regarded as the most insignificant of the various township or ward offices, and for that reason there is not much interest taken in it, nor it is much sought after.

✦ ✦ ✦

But when you come to think of it in all seriousness you cannot help concluding that it is a most important office since it has to do with the welfare of your community in general and of your children in particular.

Is there anything more important than this? Are you not interested in your children, and in your neighbors' children? If not you are not interested in anything that is worth while.

What should be the aim of life if not to make the world better? And what greater thing can be said of a man than that the world is better for his having lived and wrought in it?

Whose names stand out most clearly on the list of really great men? By all odds those who have helped mankind to become gentle, refined and generous. Nor will these ever grow dim for they are wrought in living material and not in marble, or bronze, or gold.

✦ ✦ ✦

What does the average school director know about schools, anyway? Or what does he care? Does he understand and appreciate the responsibilities of his office?

A man may be a good farmer, mechanic, and citizen, and yet not be well qualified for the position of school director. Indeed, there are not many men in any community who are fully qualified to become good, all-round school directors.

There are men who are well fitted for caring for the school house, and school property, who know very little about the essential qualifications of good teachers.

And there are others who can judge of the fitness of teachers, but are at a loss when it comes to the care and management of a school.

Then there is the crank who has notions of his own, so entirely his own that no one ever wants to share them. He is usually of the persistent sort, and often inclined to oppose anything that he does not himself suggest.

✦ ✦ ✦

The crank, however, is a necessity, for without him the tendency of things would be to stand still instead of moving forward.

You know what a fluttermeut a loose crank creates in a mill or shop, and how it scatters things about and turns steady-going wheels and things around.

It is the mission of the crank to break up the settled order of things, and thus enables the progressive, quick-steppers to get out of ruts into which the even-going, conservative ones have settled.

Give the crank his due, for he has a most important mission. We may not realize what it is, and just at the time we may think him a disturber and more or less of a nuisance.

A disturber he surely is, a disturber of the settled order of things, therefore a promoter of activity, and activity means progress and improvement. He may not always be right, but he is always doing something.

✦ ✦ ✦

Is the average school director "onto his job," as the saying goes? Does he know what he is there for? Has he the welfare of the school at heart or does he merely want to hold office?

And then it is said that some seek the office in order to secure election of persons in whom they are interested to positions in schools. And it is even said of some that they promise to support certain applicants if their friends will vote for this or vote for others in whom they are interested.

In this way, it is held, incompetent teachers find their way into schools, and are kept there.

Let us hope that this sort of thing is not as common as some would have us believe.

✦ ✦ ✦

If you were a stockholder in a bank or other business enterprise, would you favor the election of men as directors who knew nothing about the business, or had shown no aptness in the management of affairs of a similar nature?

Would you choose a school for your children that it directed by men whose moral character is bad, or whose reputation is not good?

Why then do you elect school directors whom you would not have direct the morals of your children?

Pupils are taught to look upon directors as men worthy of respect and of being taken as examples.

If these men swear, drink, and are in anyway disreputable, are they not likely to do more harm than good?

This brings the matter up to the voters.

✦ ✦ ✦

There is no more important nor more responsible office in the county than that of school director. It is not, or at least it should not be, a political office, for it hasn't anything to do with partyism of any kind.

If mistakes are made in other offices they can usually be corrected without much trouble or loss, but not so in this office. When mischief is done it is well-nigh impossible to make amends, for it has affected the character, lives, or learning of many children.

The school director may have more influence on the lives of men and women than the preacher, and he certainly has more than the doctor, the lawyer, the councilman, or even than the legislator, because he is helping to form the characters of the men and women who are soon to take their places in the middle of the stage.

✦ ✦ ✦

Wouldn't it be a good plan to have schools for school directors?

They have directors' associations in this and other cities, and once a year the county directors meet with the teachers in a mass institute for one day only, and listen to appropriate addresses.

This is entirely too meager, and usually too perfunctory to be of much use.

Wouldn't it be better to have instructors visit the school districts occasionally and hold district institutes in which directors, parents and pupils could take active, speaking parts?

This would seem to be practicable, and certainly it would be practical, and ought to lead to good results.

QUAINT QUIPS.

A visitor at a lunatic asylum noticed one of the inmates walking about the grounds pushing in front of him a wheelbarrow turned upside down.

The visitor stopped him and inquired the reason for the unusual procedure.

"Why, you see," said the demented one, "if I turned it right side up they'd put bricks in it."—Harper's Weekly.

"I've stopped wearing dresses with trains for hygienic reasons."

"Oh, well, even so, you widows can always raise a lot of dust."—Meggendorfer Blatter.

Inquisitive—What is that supposed to represent?

Amateur Artist—State street during the great street railway strike.

Inquisitive—Here, let me throw a few bricks through it and lend it local color.—Albany Journal.

Crawford—Does your wife always consult you?

Crabshaw—After a fashion. Whenever she wants anything she orders it first and then asks me if she can have it.—Smart Set.

NAVIGATING THE AIR IS NOW A POSSIBILITY

Roy Knabenshue Shows New Yorkers How Easy It Is to Fly If You Know How.

By FRANK A. PARKER.

[By Private Wire to The Gazette.]

NEW YORK, Aug. 23.—A. Roy Knabenshue, who is trying to show New York how easy it is to navigate the air with the wind and atmospheric conditions in his favor, succeeded in soaring into the empyrean at 2:15 o'clock this afternoon. The Toledo No. 2 went up straight as a carrier pigeon from the vacant lot at Sixty-second street and Central Park west. When it had reached a height of several hundred feet the aeronaut started the motor and the Toledo, after circling around above the park awhile, tore through the circumambient ether in the direction of Herald Square, a large crowd of curious persons had gathered outside the boarding. Many had been listening to the noises within since early morning, and by the time Knabenshue was ready to raise his anchors and start heavenward more than 5,000 men, women and children were in the vicinity.

A sudden ripping sound, a man's shout, answered by a roar from the crowd, and the cigar-shaped monstrosity shook and flapped into sight, and in an instant had risen far over the trees of Central park, while the watchers stood gaping and silent. But this lasted for only a moment. Knabenshue circled around several times over the park, then faintly descended from the sky an uneven whirring, a series of sharp clicks, and simultaneously the ship shot down, then up, and was off like a bird, making down Broadway. The airship got back to her shed safe and sound at 2:50 o'clock.

Accident Drives Motorman Insane.

After his car had run over and killed Simon Fibel, 60 years old, at Meserole street and Manhattan avenue, Williamsburg, today, John Hanan, a motorman, went insane and ran wildly along Manhattan avenue. Policeman Rosenthal overtook him and he was overpowered after a fierce struggle. "Let me go," yelled Hanan when Rosenthal had pinned him to the sidewalk. "Let me go. I have just killed a man. I am John Hanan, a motorman, and I have just crushed a man to death." Then he renewed his struggles and fought with the policeman until he became unconscious.

Got 'Em Licked at the Start.

Surgeon G. M. Carpenter, formerly of the Sixth United States cavalry, and now practicing his profession in Providence, advocates the use of the microbe as a substitute for militarism. "Inasmuch as the nations are vying with one another to get hold of the deadliest weapons and explosives," he said, at the Grand, "and are encouraging their inventors to the grimest and ghastliest discoveries, why should not the microbe be added to the armory, and the greatest nation be not that which possesses the greatest general or admiral and the strongest army or navy, but the nation with the best bacteriologist? If it were to come to this I believe America could lick creation."

Children Not Made Slaves.

Officers of the various foundling societies in the city are thoroughly aroused over a dispatch from the west reporting improper treatment of children sent to Dakota homes. All denied today any knowledge of the carload of children, all less than 4 years old, who, it is alleged, have been assigned to Russian families in the northwest. Although the New York Foundling hospital, a Catholic institution, sent 50 children out Dakota way two years ago, Sister Superior Theresa Vincent said that she was positive they were being well taken care of.

Odell Begins His Conferences.

Chairman Odell of the Republican state committee had a long conference today with Edward Lauterbach, which gave rise to a report that they were preparing a letter to the Citizens union relative to a conference on the subject of an anti-Tammany fusion. After the conference Chairman Odell said that he was not taking part in the preparation of any such letter, as that was a matter for the local organization to handle. Mr. Odell refused to make any further statement about the probable renomination by the Republicans of District Attorney Jerome.

Chinatown Has the Shivers.

The police were saying today that they would have to begin tapping the Chinamen for hidden weapons as they do the Italian. Last night Detectives Hamilton and Murray happened to look fiercely at Li Tong Tong as they passed 11 Mott street. The yellow man, unable to stand the searchlight, turned and ran. When he was overhauled a 44-caliber loaded revolver, western style, was extracted from his oriental garments, but the detectives didn't get his guilty conscience. If a cat sneezes nowadays, Chinatown shivers.

Small Boy a Human Torch.

Charles Mauser, 11 years old, started a fire with kerosene at his home today and the flames ignited his clothing. The boy ran to the street, where a passing citizen saved him from burning to death by smothering the flames with his coat. The boy was taken to Cumberland Street hospital. He will die.

Though Women Don't Vote.

In vain do Shaw and Fairbanks roam and orate and perorate. In vain does the Hon. Albert Jeremiah Beveridge retire to distant wilds to be alone with his high thoughts and hopes. If La Follette has the feminine interest the next Republican candidate for president will be a senator.

THE YELLOW FEVER AND ITS PROVOCATION

The Known History of Plague Commenced in the Seventeenth Century.

Dr. James Carroll, assistant surgeon United States navy, and one of the foremost yellow fever experts of the country, talked interestingly yesterday in relation to the history, cause and mode of transmission of yellow fever.

"The known history of yellow fever," said Dr. Carroll, "dates back to the middle of the seventeenth century, when it is said to have occurred at Barbadoes in the form of an epidemic in 1647. In 1648 there was a terrible pest at Havana, which, from its description, was doubtless yellow fever. A large portion of the garrison and a larger part of the crews and passengers in the vessels died on that occasion. The fever prevailed in the following year, and again in 1653, 1654 and 1655, with a high rate of mortality. After that there is no record of a recurrence of the pest in Havana for over 100 years.

"There are records of yellow fever in Jamaica, Santo Domingo and Martinique in the last half of the seventeenth century. In 1696 the epidemic pervaded throughout the West Indies.

"About this time there are records of fevers in Europe that might have been yellow fever, but the lack of more specific descriptions of them makes it impossible for physicians of this day to definitely determine their nature. Indeed, throughout the history of yellow fever, that disease has been badly confused with bilious fevers.

"We know as a matter of fact," said Dr. Carroll, "that here in the United States yellow fever has been time and again called bilious remittent fever, until the occurrence of a number of fatal cases with black vomit proclaimed the true nature of the disease. There is good reason to believe that with the approaching complete control of yellow fever the old-time bilious remittent fever will become much less frequent in the United States, at least.

Result of Recent Experiments.

"Recent experiments have shown that genuine yellow fever may be so mild in character that no man, no matter how extensive his experience may have been, would dare diagnose it as such unless he knew the disease to be prevailing at the time. Such cases presenting at the beginning of an outbreak would render it extremely difficult or impossible to trace the origin of the severer cases occurring later. So far as I know stegomyia fasciata has not been noted as occurring in Great Britain or central Europe, but that only goes to show that yellow fever cannot propagate in those latitudes unless the insect itself be introduced at the proper season and along with the infection; the latter in the bodies of individuals suffering with the disease, or in mosquitoes of this genus that have fed upon patients during the febrile stages of their attack.

"There is no record as yet of the presence of this insect in Philadelphia, New York and Boston, and numerous other places north of Virginia and Kentucky in the United States where severe epidemics have been reported. The explanation appears to be that the insect in question does not survive the winter of northern latitudes, but if it be introduced during a warm season it may propagate rapidly and become very numerous. We know that the eggs, if dried after they are hatched, retain their vitality for over three months, and it is possible that they might survive through a long winter.

Belated Information.

"It seems strage at this day that the real cause of the spread of yellow fever was not sooner surmised. It was well known that the disease prevailed in an epidemic form in warm, moist climates. Looking back over the description of the disease and conditions under which it has long been recognized it is clearly shown that these conditions were those under which the contagion could be spread by mosquitoes. But theory after theory was entertained during a long period of years, but no one of them included the activities of the insect.

"From the fact that as a rule the first cases appeared to originate in the vicinity of docks, wharves and shipping many of the best authorities thought that it was generated de novo in the presence of water and decayed wood or vegetable matter," said Dr. Carroll. "Many of the perplexities that troubled the physicians years ago are now readily understood when it is known that the mosquito is responsible for the spread of the disease. Many physicians who regarded the disease as contagious were surprised to notice that in some instances people associated closely with the yellow fever patients did not contract the disease, while others that carefully secluded themselves were taken down with it."

"It is known that these apparent inconsistencies of the disease are explained on the theory of the mosquito and its poisonous bite. It has been proved by thorough investigation and experiments that the disease is not contagious except by inoculation, chiefly through the mediumship of the particular species of mosquito that carries the germ of the disease.

"For centuries," said Dr. Carroll, "the opinion generally prevailed that yellow fever, like malaria, was transmitted in some mysterious way through the atmosphere, and medical literature teems with evidence of the non-contagiousness of the disease, while at the same time it was just as certainly apparent that one or more visits to a patient in certain localities usually resulted in infection.

Old-Fashioned Ideas.

"Opinion has been more equally divided as to whether the infectious agent was transmissible by means of garments or articles of bedding. Within the last five years soiled clothing, belonging to a healthy individual, and some innocent cigarette, packed beneath false bottoms in two trunks, have been accused of infecting Key West. In the light of our present knowledge of the manner in which the disease is transmitted and of the necessary period of incubation or development within the body of the mosquito it is quite clear from the facts reported that the town was infected prior to the arrival of the steamer which carried the trunks."

In August, 1900, it was first shown that yellow fever is conveyed by the mosquito stegomyia fasciata. During the following winter the observations made at that time were abundantly confirmed, and it was also proved that the bedding, clothing, etc., from yellow fever patients were innocuous. It was shown also that the disease could be transmitted by blood injection. There is now no attempt on the part of those engaged in the eradication of the yellow fever pestilence to disinfect the bed clothing, garments or discharges of yellow fever patients.—Washington Star.

The Idea Is Not at All Bad.

A citizen of Nashua, N. H., writes to the Telegraph newspaper there inviting the people of the United States to hang out flags throughout the country on the day when the formal exchange of the treaty of peace is made. This is not a bad idea. The more we can celebrate every triumph of peace the better. That would involve such a subtle encouragement of the right spirit as may well be welcomed and helped along.—Springfield Republican.

What Helps the Farmer.

A few years ago 800 or 1,000 bushels of wheat was considered a pretty good day's work for a threshing crew. Then 1,500 bushels a day held the record. This year a Brown county outfit has already established a record of 1,922 bushels in half a day, and the season has just begun. This illustrates the advancement that has been made in only a few years in farm machinery.—Topeka (Kan.) Journal.

STORIES FOUND IN THE LOBBIES

Interesting Gossip Picked Up at Pittsburgh Hotels and Stations.

He walked into the Colonial last night, took a nervous turn or two up the lobby and sat down in a luxurious leather chair. The register was turned his way as he entered the door and the bellboys ran to meet him, but he heeded none of these attentions. After remaining in the chair a minute he rushed over to the rack where the railroad folders are kept and made a generous selection. Then he sat down again. He was a "folder guest." He visits all hotels and is well known to every clerk and attache of any hotel that keeps railroad time tables.

He is about as profitable as the star boarder who takes three orders of chicken. He comes in at all hours of the day and remains a long time. He wears out the furniture and makes a mess on the floor. When this particular one dropped into the Colonial last night Col. Bill Coleman of Georgetown, Ky., took a sidelong glance at the clerk.

"Do you know, sir, that at the Phoenix down in Lexington the man who would do nothing more than look over the time tables would be shot, sir?" The colonel spoke somewhat in the superlative degree, but he was in earnest. "They have a watchman down there, and he carries a small Winchester. The Queen & Crescent has some of the finest folders issued by any railroad in the country, and the Kentuckians, who are proud of their blue grass line, will not let every Tom, Dick and Harry run away with their advertising. I saw a man kicked the whole length of the lobby because he had no business in the hotel and loafed around and stole the folders. Why, sir, he didn't even buy a drink."

Tige Accompanies the Honeymooners.

It must be a sad blow to a faithful dog when his mistress or his master gets married. At the Union station last night there was one of those usual happy bridal parties. This being August the sight of a crowd of merrymakers was somewhat unusual, but they were there and they had a real enjoyable time. William Ward of Crafton, a member of the auditing staff of the Pennsylvania lines, and his bride, Miss Ella A. Porter of Clintonville, were about to board the New York special. Horns were tooting and rice rained down. Just then Tige came running up and barked boisterously. The train was called, the gate closed with a bang and the bride kissed all her friends. Poor Tige was left behind. Who hasn't some sympathy for the lonely old dog? He walked sadly away—and lost himself.

More People Join Denver Party.

Several additional persons have signified their intention of joining the party that will escort Col. J. P. Walker, national commander of the Union Ex-Prisoners of War, to the annual encampment at Denver. Mrs. Lottie McCallery of Allegheny, who has the unique distinction of being the only woman that was confined in Libby prison and was exchanged the same as a prisoner of war, will be a member of the party. Among others will be W. P. Braun, Miss Annie Winters, Miss Blanche Kleinfelter and Mrs. Della F. Crowther of the East End, W. C. St. Clair and party of Burgettstown, and Dr. Mary Jones and party of Butler.

Bridal Couple at Hotel.

Rice was strewn over a big part of the floor of the Hotel Henry lobby early last evening and a newly married couple of Pittsburghers escaped from the tender mercies of their friends only by a rush to the elevator. The victims were Miss Alma Weber of Mt. Meyran avenue, Oakland, and Harold A. McLean, also of Pittsburgh. They were married at the bride's residence by the Rev. Dr. D. H. Geissinger of the First English Lutheran church.

The couple started down street in a carriage, while a dozen friends came ahead of them. When the bridal carriage drew up at the entrance the plotters hid behind two columns and the stairway until the two were too far inside to escape through the door. Mr. and Mrs. McLean will spend a couple of weeks at the seashore, and on their return will reside in Webster avenue.

OVER THE LINE WITH DAD.

If I could be a boy again,
On the wings of fancy loose,
Free from the cares that make us men,
In my dear old dad's caboose;
Of all there was I now recall,
That made my boy heart glad,
I wish that I might go again
Over the line with Dad.

Chums with the brakemen laugh and joke,
Ride on the engine a while,
Washing away the grim and smoke,
Standing up straight in the aisle;
Climbing up on the counter high,
O, what a treat for a lad!
Coffee, sandwich and custard pie—
Over the line with Dad.

Sit way up in the lookout too,
With an eye on the jostling cars,
Climbing there in the night to view
The way of the lanterned stars;
Snuggled close to the truest friend
That ever a fellow had,
Wishing the trip might never end—
Over the line with Dad.

I grudge no one the train de luxe,
With its splendid woods and brass,
For fond I keep in memory's books,
A record none may surpass;
Ah, could I only by magic ruse,
Take any trip to be had,
I'd rather ride in that old caboose,
Over the line with Dad.

The old caboose has gone long since,
And its crew has [illegible] the sky,
Fancy still with its radiant tints
Illumines the days gone by;
And when God's caller comes round for me,
My heart shall be far from sad,
If only I know that I'm to go
Over the line with Dad!

NEW RULES HAVE BEEN AGREED ON

Code for Government of the Republican City Committee Ready for Adoption.

FINAL ACTION NEXT WEEK

Amendments to the Republican city rules, as outlined in yesterday's Gazette, have been adopted by the the joint rules committee. The printers are now at work on the new code and advance copies will be in hands of the members of the city committee by Saturday. The meeting for the adoption or rejection of the rules will be held on next Thursday night.

It has been decided to continue holding primaries on the first Saturday of June. At these elections the boards to conduct the primary elections, the members of the ward committee and the Pittsburgh members of the county committee will be elected. Nominations for these offices are made at the district association meetings held on the first Tuesday of May. No change has been made in the method of selecting members of the city committee. They will continue to be elected by the ward committees. In the future primaries for the nomination of a county ticket will be held in September, but if the ward organizations were not perfected until then, there would hardly be time to get the machinery in running order for the fall election.

Report of the Committee.

The committee having in charge the amendment of the city rules, consists of W. M. Benham, F. C. Beinhauer and John B. Barbour, Jr. It has prepared their report for submission to the city committee at the same time the amendments are presented.

We, the undersigned committee, appointed to confer with like committees from Allegheny county, the cities of Allegheny and McKeesport for the purpose of making uniform rules to govern the aforesaid bodies, beg leave to report the following rules for your consideration and submit the same herewith.

The object of these committees was to remove all objectionable features to the rules and make them conform with one another. We have done this where practicable. You have before you various changes.

In forming the district associations they must be organized at the regular polling places instead of as heretofore leaving it discretionary with the chairman of the district association to select the place of organization. Notice thereof must be given to every Republican voter by notice inserted in three Republican newspapers.

Open Primaries Established.

In nominating candidates for various offices, delegates and conventions have been abolished and instead thereof open primaries are established, and all candidates for city offices shall declare, in writing, to the chairman of the city committee their intention of being candidates thereat at least 15 days before the primary. And at all primaries no police officer, uniformed or otherwise, is permitted to approach within 50 feet of the polling place, except to quell a breach of the peace, and any interference by such police officer in behalf of any candidate shall be deemed sufficient grounds for raising a contest.

You have a fixed time for your primary elections. No person holding any office or position under the national, state, county or city government can be eligible to a seat on any primary board. It is compulsory for the members of primary boards to be sworn, and the result of the election must be certified to the chairman of the city committee.

The Election Board.

The election board is constituted as formerly with the exception that candidates for county committee may each appoint one inspector, provided, however, that at primary elections where no county committeemen are to be elected any number of candidates before said primary, not less than one-half in number, may select one inspector. Furthermore, we have provided that all district candidates may have the right to be in the polling place during the election and count of vote.

A section is also inserted prohibiting any candidate before said primaries from giving or promising moneys or other things in order to procure votes.

The qualification of the Republican voter has been made most liberal. He shall have voted the Republican ticket at the last preceding national or state election and shall have resided in said election district 30 days and upward.

Some discussion was raised owing to the increase of the finance and campaign committees from nine to 15 members a year ago, and in order to remove any criticism whatever your committee deemed that these committees should be composed of the original number of nine members each.

No Ground for Complaint.

The time for holding suggestion meetings has been definitely set, namely, the first Saturday in the month of January of each year, and the chairman of the ward committee is required to notify the chairman of the city committee at least one week prior to the holding of the suggestion meeting of the place where the same shall be held, and the chairman and secretary of the city committee are required to publish in three Republican newspapers at least three days prior to the suggestion meeting a notice of the same. In making the time and place for the suggestion meeting definite there can be no grounds for complaint on the part of those aspiring to office to the effect that they were not notified of the same.

The new amendments to the rules are conspicuously designated in large type. In our report you will find that the rules as amended are fair and could not be more open. Critics of the old rules must now be silent; bossism cannot exist within our ranks; your city chairman could not in any way aid and assist any candidate under these rules. We verily believe that with these rules in force every Republican who desires has the opportunity to take an active part in party affairs, and we predict the Republican party will be successful; true reform will be brought about; business will be conducted on business principles; the interest of the taxpayer will be protected; and dishonest methods to secure nominations will be forced out of existence.

EXPLOSION WRECKS PART OF MUNICIPAL HOSPITAL

Hot Water Storage Tank of New Heater Lets Go With Terrific Force.

The explosion of a 60-gallon hot water storage tank wrecked the kitchen and cellar of the administration building of the Municipal hospital in Bedford avenue yesterday morning at 10:30 o'clock and badly frightened the inmates of that institution, including 14 patients. Thirty-two large panes of glass in the building were smashed and the entire heating apparatus, with which the hot water tank was connected, is a total loss, although it was installed only six weeks ago.

The heater worked fairly well yesterday morning until the tank exploded with a force that tore up the floor of the kitchen from the cellar and carried it, with a large, heavy gas range, to the ceiling. One end of the tank went through a heavy door in the cellar, making a big hole in the cellar wall. The noise of the explosion was plainly heard over the Thirteenth and Eleventh wards.

Mary Barclay, the cook, had just finished baking pies and was placing them in an adjoining room to cool. She missed the explosion by less than a minute. The dust was carried through the long passage way from the administration building to the hospital and served to increase the fears of the patients. The damage will amount to between $1,000 and $2,000. City Physician Booth said the company selling the heater was to blame for the accident.

MANDAMUS THIS WEEK.

Pittsburgh Board of Trade May Take Action on Fender Problem Tomorrow—Ready to Act.

"You may safely say that the mandamus suit will probably be filed against Director Moore this week, on Friday, to compel him to enforce the fender ordinance," said Secretary Chauncey Lobingier of the Pittsburgh board of trade yesterday, after a conference with Attorney Thorp of Weil & Thorp.

"Nothing will be done until President Harman of the board of trade returns. He will be out of the city until Friday morning and then some action will very likely be taken. I am in favor of filing the suit immediately. I do not want to be classed as a bluffer or with an organization that has the reputation of bluffing"

TWO ORPHAN BOYS WIN BIG REWARD BY WORKING

William Abbatachio and Stephen Chobaldy Will Be Established in Business by Father Lynch of St. Paul's Asylum.

Good behavior and attention to business has won a big reward for two boys who have been raised in an orphan asylum and before long they will be established in business in their own building and will be ready to carve out their future. William Abbatachio, aged 18, an Italian, and Stephen Chobaldy, aged 18, a Slav, are the boys selected as deserving of help and the Rev. Father Michael Lynch, manager of St. Paul's orphan asylum, who has been the guiding genius of the lives of the two boys, has decided to give them a start in life and open the road to prosperity for them.

The boys were left alone in the world when they were small children and in course of time they were placed in the care of St. Paul's orphan asylum. There the boys received a good common school education, and when they were old enough Father Lynch found employment for them with a baker and they learned the baking trade and proved apt apprentices. The behavior of the two boys and the interest they took in the business has been followed carefully by Father Lynch and they have proved themselves worthy of the confidence placed in them when away from the discipline of the only home they have ever known.

Now that the boys have reached the age to strike out for themselves and are proficient in their trade, Father Lynch conceived the idea of setting them up in an establishment of their own. After looking around for a suitable place for the boys to locate, Father Lynch purchased a lot measuring 100 feet square in the thriving little town now growing up about Rock station on the Wabash railroad. The deal for the lot was closed yesterday by the priest and he is now arranging to have a modern bakeshop and store building erected on the lot for the boys.

The shop will be up-to-date in every particular and the boys will have a store in which to display and sell their goods and also have dwelling rooms in the rest of the house. Father Lynch yesterday said the boys are fine bakers and he believes a bright future is in store for them and their business. About $4,000 will be invested to give the boys a start in life by the priest.

The building will be erected directly across the road from the Wabash railroad roundhouse, and as it fronts on the macadamized road which runs from Pittsburgh to Carnegie, the boys will have plenty of opportunity to sell their goods and extend their trade outside the town.

PIPE LINE WILL SURELY BE LAID

So Says Col. T. F. Mundy Regarding Kansas-Indian Territory-Gulf Project.

SPENDS DAY IN PITTSBURGH

"All that I wish to say is that the pipe line from the Kansas and Indian territory oil fields to the gulf will be built. There is no doubt about it, it will be built," emphatically stated Col. J. F. Mundy of Chanute, Kan., last evening at the Hotel Henry.

Col. Mundy, who is at the head of the movement of the independent oil operators of Kansas to secure the gulf pipe line as an outlet for their production, spent yesterday in this city. He had a conference with the representatives of the Mellon and J. M. Guffey Petroleum company interests, with whom he is negotiating for participation in the project.

Col. Mundy would say nothing regarding his conference today nor the present situation except that the line would undoubtedly be built.

In regard to the report that less than the 10,000 barrels daily production needed for the gulf refinery at Port Arthur being secured, had been secured, he said that over 12,000 barrels were assured. The options have not lapsed and the plans are now merely being worked out to completion. He stated that the properties going into the deal will deliver at the gulf that amount of oil averaging 34 degrees gravity.

When the plan is carried out it will mean one of the biggest orders for pipe line placed in recent years. There will be 680 miles of eight-inch main, with 200 miles of four-inch and 600 miles of two and three-inch. The cost of the pipe line alone with the necessary stations is estimated to reach $4,500,000.

Col. Mundy left last evening for the east, and is expected to return to Pittsburg in a week or so.

COLORED PYTHIANS HEAR REPORTS OF OFFICERS

Membership of Organization Has Grown to 68,462—Hawaiian Delegate Makes Interesting Address.

At the second day's session of the supreme lodge of the colored Knights of Pythias in Turner hall, Forbes street, the report of Supreme Chancellor S. W. Starks of Charleston, W. Va., was the main business. His report shows the order to be in excellent condition. There are 26 grand lodges and 1,536 subordinate lodges with a total membership of 68,462. Over $300,000 endowment money was reported received, and after all claims were paid a balance of $4,142.12 remains. The grand lodges were reported to have property to the value of $31,233.30, with over $69,000 in their treasuries.

In closing his report Chancellor Starks spoke of some things to which his race is subjected and advised the negroes to organize in order to be successful. He said there is no way of estimating the powerful influence the 10,000,000 colored people would have if they would act for their common interests. At the conclusion of his address he was nominated for re-election by acclamation.

At the afternoon session the reports of Supreme Keeper of the Records and Seals C. K. Robinson, Supreme Attorney S. A. T. Watkins, and the committees on finance, appeal and grievance, mileage and per diem and state of the order were read. Interesting features of the afternoon were addresses by the delegates from Hawaii, S. Kelinoi, a Hawaiian, and Chang Kin, a Chinaman. Mr. Kelinoi said there are now four lodges, with a total of 300 members, in Hawaii. One lodge is composed entirely of Chinese and has 60 members. The delegates came here to urge the convention to have the ritual translated into the Hawaiian and Chinese languages.

Last night two means of entertainment were afforded the delegates. A night ride up the Monongahela river and a concert given by the Eighth Illinois regiment band and the choir of Zion church, in Turner hall.

At today's session the principal business will be the selection of the next meeting place. Louisville, Ky., is working hard to have the next convention held there. A parade will be held in the afternoon over the following streets: From Dinwiddie street and Center avenue, along Center to Fulton street, to Wylie, to Fifth, to Sixth, across the bridge and up Federal street to North avenue, where it will be reviewed by the grand officers.

NOT AFTER REPUTATIONS.

Legislative Inquiry Will Be to Determine Conditions, Not to Destroy Characters.

NEW YORK, Aug. 23.—Senator W. W. Armstrong, chairman of the legislative committee to investigate insurance companies, said tonight that the entire committee would assemble tomorrow and then go to the office of C. E. Hughes of counsel to the committee to consult with him and Mr. McKeen.

"We do not propose to permit lawyers to use the time of the committee," said the senator, "in examining witnesses looking to their vindication. We are not after men; we are after conditions. It is our hope to restore public confidence in insurance and not to destroy or tear down reputations. There will not be much appearance of counsel."

Rain Does Damage Near Irwin.

IRWIN, PA., Aug. 23.—(Special.—An area of about five miles in length and about two miles wide with Penn and Manor in the center of it was visited by a fierce electric and rain storm this evening. About two inches of rain fell. Brush creek overflowed at Penn, flooding the town so that the street car lines were tied up. The Penn Coal Company powerhouse was put out of commission.

Want Municipal Improvements.

Property owners in Versailles borough will probably ask for annexation to McKeesport and a petition will be put in circulation shortly to ascertain the opinion of voters in the matter. The borough is without improvements and as it has no fire protection the fire insurance rates are very high.

GOV. FOLK SEES HONOR'S SUNRISE

Believes Last Four Years Have Revolutionized the People's Ideals.

GOVERNMENT GETTING BETTER

[SPECIAL TELEGRAM TO THE GAZETTE.]

CHAUTAUQUA, N. Y., Aug. 23.—Chautauqua and the weather man combined to make the day ideal in all respects to welcome the third distinguished visitor of international reputation during the present season, the Hon. Joseph W. Folk, governor of Missouri, who arrived this morning.

An audience of 5,000 assembled before the appointed hour to hear Gov. Folk's address, of which the following is a part:

"There never was a time when good men and women were needed as they are now. We need good men in public life, but I do not refer alone to those in public office. It is just as essential for good government that the private citizen be a good man, awake to the needs of the times. The indifference of the average citizen and his neglect of civic duties is a great hindrance and impediment to good government. Once in a while a whirlwind of public conscience is aroused. The strength of the lawless is great, but is nothing when it comes in contact with the public opinion. The people of St. Louis showed that. Philadelphia at last awoke from her slumbers and determined to do something. There is not a community in the land where the law-abiding people are not in the majority, but the lawless element is so vociferous as to deceive many as to their numbers. A dozen law-breakers make more noise than 500 law-abiding citizens, but they are cowards and if you just stand up and fight them you can overcome them.

"Four years ago the legislative halls were dens of thieves and the touch of the unclean dollars was over all. The public conscience was asleep as the people awoke to the fact that bribery government was not government by the people. Brilliancy and wit on the part of legislators is well enough, but every day honesty is better.

"In the last three years the city of St. Louis takes the lead for good government. The immigration has increased more; lands have advanced in value 20 per cent more in every city, county and township; the revenues are becoming far in excess of economic needs of the state government. By the time the next legislature meets, I'll be justified in recommending a reduction of the tax rate. During five months of the enforcement of laws, St. Louis has prospered as never before in all history. Real estate in Kansas City has advanced more than in five years, and St. Joseph is rapidly coming to the front.

"It is not only right but has the sordid stamp of good business. We don't need new laws, but reformation in the administration of the laws we have."

The Death Roll.

Miss Kate Neville Fleeson.

News of the death on July 3 of Miss Kate Neville Fleeson, a missionary in Siam, was received yesterday in a letter by her brother, T. P. Fleeson. The announcement will be a shock to Miss Fleeson's many friends, as it was not known even by her relatives that she had been ill. Miss Fleeson was a missionary in Lakawn, Laos, Siam, from the First Presbyterian church, Wilkinsburg. The funeral was held on July 6 at Petchaburee, near Bankok, and was attended by Dr. Hayes, the king's physician, the king's brother and many of the foreign representatives there. Miss Fleeson was on her way home to her brother, T. P. Fleeson, 1304 Fayette street, Allegheny. After leaving her mission station at Lakawn and descending the Manam river, she was taken sick, and on reaching Siam was taken to the home of Dr. Hayes. She has been in Siam as a missionary for 17 years. She was a daughter of T. P. Fleeson, Sr., formerly of Neville Island, and a niece of Reese C. Fleeson. She made her home while in this country with her brother in Allegheny. Memorial services for her will be held in the Wilkinsburg Presbyterian church in the near future. Miss Fleeson is survived by a brother, Thomas P. Fleeson, and two sisters, Mrs. J. N. Waters of the East End, and Mrs. Ella M. Niell of California.

Joseph M. Leisser.

Joseph M. Leisser, aged 73, died Tuesday at his home, 1543 Howard street, Allegheny. He was born in Germany and came to this country in 1852. He was a river engineer, but for the past 15 years was employed at Walker's plant in Allegheny. He leaves his widow and the following children: Mrs. E. W. Peterson, Mrs. Alvin Goldbach, Mrs. Theresa Weimann, Miss Annie Leisser and Martin and Conrad Leisser, all of Allegheny.

Bernard Schmid.

Bernard Schmid, aged 76, a veteran of the civil war and a retired liquor dealer, died yesterday morning at his home, 2508 Sarah street. He was a member of the Union Veteran Legion No. 1 of Pittsburgh and of Col. James W. Patterson Post 151, G. A. R., and of St. Peter's Roman Catholic church.

Obituary Notes.

Thomas McFadden, a civil war veteran and formerly a prominent jeweler of Pittsburgh, died at his home in Coraopolis yesterday. Mr. McFadden was born July 4, 1834, in the First ward, Pittsburgh. He removed to Coraopolis about 1882 and had lived there since. He was a member of Child's Post 230, G. A. R., of Pittsburgh. One brother, James McFadden, survives him. The funeral will be held tomorrow. Burial in Sharon cemetery.

Mrs. Elizabeth Colt, widow of Samuel Colt, the famous gunmaker, died at Newport, R. I., yesterday afternoon of paralysis. The body will be taken to Hartford for burial.

MARRIAGE LICENSES.

Marriage licenses were issued yesterday as follows:

Frank Maloney, Annie Barry; Bartholomew Marshall, Mary O'Brien; David W. Davis, Elizabeth W. Ruppel; J. T. E. Schmidt, Mathilda E. Heinrich, all of Pittsburgh.

NEW YORK, Aug. 23.—The Pirates, after holding the lead for four and a half innings at the Polo grounds this afternoon, allowed New York to bat out a victory in the fifth inning when Leever was batted off the rubber and won the game 7 to 2. Today's win by the Giants makes the season series stand Pittsburgh 10 games won to nine for New York.

Case, who replaced Leever, with proper support would have prevented further scoring, as the Giants' two runs made in the sixth inning after two men were out, was due in a measure to Hillebrand's failure to get Mertes' drive, on which the batter made the circuit of the bases and sent Browne in ahead of him.

McGinnity's game would have been hard to improve upon after the fourth inning, only one of the visitors got as far as third, and this was due to Mertes losing a fly from Brain's bat in the sun in the seventh inning, Brain reaching second on the play and third on Ritchey's sacrifice.

Umpire Johnstone for the third successive day was compelled to order a Giant off the field, Dahlen being the one to go this time, for arguing with the field master in the fourth inning.

Leach opened the festivities by popping a foul to Bresnahan, Clarke beat Dahlen's throw to first of his rap. Dahlen grabbed Hillebrand's grounder and choked off any further trouble by retiring both Clarke and Hillebrand on a double play.

In their half of the second inning the visitors made one run. Dahlen made a bad fumble on Howard's rap. Brain followed with a smash against the left field fence for two bases, sending Howard to third. Ritchey bunted safely, scoring Howard with Pittsburgh's first run, while Brain took third. Gibson lined out to Donlin, who fielded the ball so quickly to home that Brain had to hustle back to third. Leever fouled out to Bresnahan closing the inning.

The fourth inning was productive of Pittsburgh's second and last run. Howard shot a hot one to McGinnity and died at first. Brain caught one of McGinnity's straight ones nicely and put the ball through the center field ropes for a home run. After this the Pirates could make no impression on McGinnity's slants, and were almost retired in one-two-three order.

The Giants got their first run in the opening inning. Donlin planked a stinging drive to right field for one base. McGann's grounder got by Leever and forced Donlin at second. McGann made a clean steal of second and scored on Mertes' long smash to right field for a single.

Not until the fifth inning did the Giants score again, and during this period they practically won the game, at the same time drove Leever to the shade of the grand stand.

Browne bunted. Donlin cut a path through the grass all the way to the right field fence for three bases, sending Browne home. McGann was hit with a pitched ball. Mertes walked on four wide ones, filling the bases with none out. Bowerman was out on a slow grounder to Ritchey, and the other runners advanced. Devlin was the man of the hour and sent a long single into left field, scoring McGann and Mertes. Strang flied out to Leach, who threw the ball wild to first, allowing Devlin to reach second base. Bresnahan was the receiver of another gift from Leever. Wagner stopped further run-getting by grabbing McGinnity's roller and retiring the pitcher at first.

Case began pitching for his side after this batting bee. Browne opened up on Case in the fifth inning with a bunt and beat it out. Donlin followed to Wagner. McGann's long fly fell to Hillebrand. Browne stole second. Mertes laced a hot drive to right field which got by Hillebrand, and allowed Sandow to score a homer and Browne to romp home ahead of him. The score:

WARD-WRIGHT DEFEND TITLE

[By Associated Press to The Gazette.]

NEWPORT, R. I., Aug. 23.—Without exertion Holcombe Ward of New York and Beals C. Wright of Boston successfully defended the national tennis championship in doubles on the Casino courts today by defeating F. B. Alexander and H. H. Hackett, both of New York, in straight sets, 6-2, 6-1, 6-3. The doubles championship match was the event of the day, but in addition, the entire second round in the singles championship event was completed, making with the double matches, 75 tennis contests decided in two days, a record in this sport.

That Ward and Wright should score such a decisive win over a pair that only yesterday showed themselves cool, steady and resourceful, came as a surprise to the experts, while the erratic work of Alexander was a great disappointment. At the start it looked as though the match would prove hard-fought and long drawn out, for 12 points were necessary to decide the first game in favor of Alexander and Hackett. A slump followed, however, and while the multitude of errors was relieved at times by some brilliant work, especially in the sixth game of the first set, which Wright won on three successive aces, followed by a hard smash, the match scarcely rose above that of ordinary play. In the 24 games played only seven went to deuce.

The points scored in the first set follows:
Ward and Wright.............. 5 4 2 4 6 4 4 4—26— 6
Alexander and Hackett.... 7 1 4 2 4 0 2 3—23— 2
Second set—
Ward and Wright.............. 7 4 4 4 1 2 4—26— 6
Alexander and Hackett.... 5 2 1 1 1 5 1—16— 1
Third set—
Wright and Ward .... 2 4 5 0 4 0 4 4 6—28— 6
Alexander and Hackett.... 4 1 2 4 6 4 2 1 4—23— 3

SADIE MAC BREAKS A STAKE RECORD

[By Associated Press to The Gazette.]

READVILLE, MASS., Aug. 23.—Three well fought harness races for three famous stakes, the $10,000 Massachusetts, the $5,000 Neponset and the $2,000 Tyro, closed the grand circuit meeting at the Readville track today. Sadie Mac took the first in record time for the event, Allerton won the second after six heats had been run off, while Katherine L. captured the third. Sadie Mac's victory was expected. The time in the initial heat lowered the record for the stake a full second from Billy Buck's mark. In no year since the inception of the event in [illegible], except when Boralma won, has the winner of the race so outclassed the field as did Sadie Mac today.

The Neponset dragged along for six heats and saw the contestants so weary at the end that the time fell back from [illegible] to 2:12. The Tyro saw the largest field of youngsters that has faced a starting judge in several years. Again was Miss Wilkes the [illegible] of the first horse, at her [illegible]. Katherine L. held the field at her mercy. All previous records of the season by the 3-year-olds were broken by more than a second. The summaries:

BANKRUPT SUES FLEMING ESTATE

Real Estate Deal, the Plaintiff Trustee Says, Has Not Yet Been Completed.

SUIT AGAINST A PENSIONER

John Gates, Jr., trustee of the estate of William Augustus Scheibler, bankrupt, sued William J. Brennen and Julia Ryan Fleming, executors of the estate of George S. Fleming, for $3,265.14, with interest from March 1, 1905. The plaintiff avers Fleming bought a piece of property at a public sale from the bankrupt's estate for $5,800 and the assumption of a mortgage. He paid $580, it is alleged, but failed to pay the balance or to accept a deed. A demand was made on his executors after Fleming's death, and it is alleged they promised to pay the balance of the purchase money as soon as they sold the property. It is alleged they endeavored to sell it at private sale, and also at public sale, but no bids were received, it is said, and it is alleged the plaintiff agreed to sell the property on the account of the estate. This, it is alleged, was done, the purchaser paying $2,700 and assuming the mortgage. After this credit is made, it is alleged, the amount claimed is still due on the balance of the purchase money, interest, taxes, etc.

United States District Attorney John W. Dunkel has entered a suit to recover pension money paid to Mary J. Beuket or Mary J. Zerby. The defendant was the wife of Daniel V. Zerby, who was a member of Company F, Seventy-eighth Pennsylvania Volunteers, and died in the service on October 20, 1862. In October, 1864, she became a pensioner and remained on the rolls until December 16, 1880, when she married Andrew Beuket in Lawrence county, Pa., when her pension ceased. In 1904 she applied for reinstatement and back pension, supporting the claim with a decree of the court of Jefferson county, Pa., made July 3, 1903, declaring her marriage to Beuket void on the ground that he had a living and undivorced wife when he married Mrs. Zerby. Her application was granted, and in November, 1904, she was paid $3,147.80 back pension and has since drawn a quarterly pension of $36. The bill asserts that Beuket was absolutely divorced from his first wife in June, 1874, and that this was not known to the Jefferson county court when it issued the decree in 1903 declaring the marriage with Mrs. Zerby void. On this ground the government sues to recover the back pension paid to the defendant, and the quarterly payments made since, with interest from April 10, 1905.

Another suit growing out of the Harrisburg wreck on May 11 was entered against the Pennsylvania railroad yesterday. The plaintiff is Napoleon B. Russell, a Pullman car porter, and he asks for $25,000 damages. He says he was in a hospital until July 17, that he sustained permanent injuries and will have to undergo an operation.

The Equitable Trust Company has been appointed receiver to wind up the affairs of the Duquesne Mutual Fire Insurance Company.

The master in the divorce suit of Charles Dosch against Sadie Ellen Bennett Dosch recommended a decree on grounds of infidelity. Dosch says his wife left him and went to Canton, O.

Fred L. Norton was granted a divorce from Clara M. Norton. They were married in Buffalo in 1893, and have three children. They moved to Pittsburgh in 1900. Norton says his wife became infatuated with the stage and wanted to be an actress. He urged her to stay home and take care of the children, but she left him on January 15, 1903, and he has never seen her since.

Mary Klaweter filed a libel in divorce against William Klaweter, alleging cruel and barbarous treatment, and Bertha A. Grimm filed a libel against Harry J. Grimm, alleging desertion.

At the suit of the Pennsylvania railroad a temporary injunction has been issued restraining the borough of Swissvale from taking railroad property to widen a borough street.

The will of Jacob Grimm of Pittsburgh, filed yesterday, divides an estate of $6,870 among his children. He left $90 for masses.

The Crown Petroleum Company filed a demurrer to the suit of John C. Reilly and others, an action for oil alleged to have been sold by the company which is said to have been from wells drilled on a lease of the plaintiffs. The defendant says if it is accountable to the plaintiff, the action should be in trespass and not in assumpsit.

A foreign attachment was issued by the Cheat River Lumber Company against C. H. Williams. Bail in $10,000 is asked, and Frederick W. Ward summoned as garnishee.

Martin P. Marshall sues John Bryan for $5,000 damages, alleging false arrest and assault and battery. He says the defendant undertook to arrest him at McKees Rocks without warrant or badge of authority.

Joseph F. Butler, one of the defendants in the suit brought by Charles F. Holtman over patents invented by him, has filed an answer claiming a one-third interest in one of the patents.

Executions issued: George Moodie & Son vs. John Scholz, $224; same vs. Sarah J. Simmons, $156.

IN THE THEATERS.

Empire Theater Opens Next Monday. Attractions in Other Houses Promise Well.

Manager McCullough will open the Empire theater—"the up-town theater"—on Monday evening next, the opening attraction being a stirring melodrama of post-bellum days in the south, called "The White Caps." The play promises to be full of both excitement and sentiment and will serve to give the Empire an auspicious opening.

When Addison Burkhardt and Raymond Hubbell wrote "The Runaways" the musical extravaganza which comes to the Alvin next week, they had George Evans in mind for the star comedian role. Mr. Evans' vaudeville contracts prevented him from accepting the part at that time, and now, after two years, that very clever and versatile comedian has been secured and this year heads a strong company in the entire original Casino production of "The Runaways," which will be seen all next week at the Alvin.

Joe Welch himself in the title role of "The Peddler" will be the attraction at the Bijou next week, starting Monday matinee, and is a treat to which many people are looking forward with delight. Everyone likes him better in this play than in any of his other roles, and the local management has actually demanded that he present "The Peddler" in preference to a new play on this occasion.

Having inaugurated its season of high class and refined burlesque and vaudeville so auspiciously, the management of the Gayety evidently proposes to maintain the standard set. The attraction for next week will be Rose Sydell's famous London Belles Burlesque Company, one of the biggest and best. There will be a number of excellent vaudeville acts in addition to the regular bill.

"Simple Simon Simple" has proved to be a great laughing hit at the Nixon, the antics of Simon and Mose being sufficient to keep the audience in a roar of laughter from start to finish. The extravaganza will continue all next week, with popular matinee Wednesday.

The Imperial Burlesquers, Harry Williams' Own Show, will be at the popular Liberty street theater, commencing next Monday with a matinee. This season's show is said to be the best Mr. Williams has ever presented. A new three-act comedy, "An Eye Opener," with a bevy of 25 pretty girls and several excellent comedians, will be seen on the stage.

THE PARKS NEXT WEEK.

Music, Vaudeville and Many Other Attractions Have Been Secured.

Next week will close the vaudeville theaters at Oakwood and Southern parks. At Oakwood the bill will be William Josh Daly's Minstrels. The company in addition to Mr. Daly includes Charles F. Harris, the popular Pittsburgh basso. A feature of the olio will be the thrilling act of Gourley, Sully and Gourley, acrobatic comedians. At Southern park the closing bill will include Al. Waltz, roller skater and unicyclist; Carroll and Clarke, eccentric comedians; Waldorf and Mendez, comedy acrobats, and Merrill and Rozella in a comedy sketch. The cameragraph will include scenes from Fifth avenue, Pittsburgh, and a picnic of newspaper men "Down on the Farm" at "Old Man Geary's."

Morin's famous French military band, with Miss Blanche Mehaffey, soprano soloist, will begin a week's engagement at Luna park next Monday. Morin's band is one of the best foreign musical organizations which ever visited this country. Miss Blanche Mehaffey needs no word of commendation to the Pittsburgh public, having won her way into the hearts of her audiences during her appearance with Weber's band several weeks ago. The circus feature for the week is the Bard Brothers, acrobats, who come with the highest indorsement of all parks in which they have appeared.

MANY ARE BUYING HOME PROPERTY

Improved Frontage in Charles Street, Allegheny, Changes Owners—Price $30,000.

SALE IN NEVILLE STREET

Real estate deals so far this week have been confined almost entirely to the residence sections of the county, the East End, Squirrel Hill and upper Allegheny being the leading localities in which investors are taking up properties. Nearly all the deeds which have been placed for record during the last few days have been for home properties, and investments in this kind of realty are taking the lead in the opening of a good realty market, which is expected by brokers.

One of the largest deals which has been made for home property in upper Allegheny for some time has just been put through, and as a result of the negotiations a large piece of improved frontage in Charles street, Tenth ward, Allegheny, has changed owners, the consideration being $30,000. The property has a frontage of 100 feet and a depth of 160 feet, and is in a part of the G. V. Kilberlin plan of lots. The lots are improved with medium-sized brick dwellings. Title to the property was taken by the American Securities Company of Pittsburgh from Kathryn L. Grundish, the seller.

Many other smaller deals for residence property have been made lately in the Tenth ward, where many fine residences and medium dwellings have been put up in the last few years. The property is high and overlooks the city and is a fine place for homes.

Sale in Neville Street.

Two two-story brick residences in Neville street, near Wallingford street, Twentieth ward, have changed hands for $20,000. The houses are built on a plot 50x125 feet, and were sold by James F. Powell to George N. Powell. Neville street is built up with many good-sized residences, most of which are owned by the people who occupy them, and deals for property in the street have become rare.

Another good plot of improved property in Hamilton avenue, Twenty-first ward, has changed hands and brought $12,000. The property is 100x112 feet, and is at the southwest corner of Hamilton avenue and Novelty street. The seller was Joseph P. Bingaman and the buyer was A. B. Matheny.

Harry E. Enyon, the builder, who a few days ago purchased a plot of ground fronting 116 feet in Herron avenue, Thirteenth ward, from Leonard Peloubet through the Aronson Realty Company for $7,000, is preparing to improve the property, which extends through 110 feet to Iowa street, with 18 brick houses of six rooms each. The same brokers also sold to Eugene Bryce a 10-room brick residence in Oakland square, Fourteenth ward, for $6,000. The residence occupies a lot fronting 30 feet in the square and it has a depth of 100 feet. The house is of modern construction and will be occupied by the new owner as a home.

Buys Hotel at McKees Rocks.

Miles Bryan has purchased a three-story brick hotel building in Chartiers avenue, McKees Rocks, for $28,000 from Mrs. Mary A. Lauinger. The building stands on 40x100 feet, and was recently built by the seller. The property is located in the heart of the business section of the borough, and is opposite the big shops of the Pittsburgh & Lake Erie railroad.

John H. Fisher has sold to the Pittsburgh Importing Company an improved lot, 20x100 feet, in the west side of Mifflin street, near Friendship avenue, Sixteenth ward, for $7,000.

George Skene has purchased an improved lot, 50x130 feet, in the north side of Boquet street, near Semple street, Fourteenth ward, from William Robinson for $7,000.

Ellen Mooney has bought from Charles A. Poth 100x272 feet in the north side of Althea street, near Estella street, Thirty-eighth ward, for $4,000.

S. M. O. Grant has sold to Johanna Glinke 24x100 feet, improved with a dwelling, in McDonald street, Twenty-first ward, for $1,800.

Charles S. Hassenplug sold to Catherine J. Dunn 26x96 feet at Rosetta and Vista streets, Nineteenth ward, for $1,850.

Samuel Biggart purchased 50x200 feet in Marshall avenue, Tenth ward, Allegheny, from R. C. Harris, for $7,000.

New Hotel for Liberty Avenue.

Among the real estate men it is reported that the B. F. Jones estate has decided to improve the Seventh Avenue hotel property with a modern fireproof hotel building when the lease on the property expires, which will be in about two years. The building will be one of the finest hotel properties in the city, and it is said will cost close to $1,000,000 to erect. The Seventh Avenue hotel property is almost directly opposite the head of Ninth street. It measures 85 feet in Liberty avenue and extends back 129 feet to Strawberry alley, and has entrances from both streets. The property has been used for hotel purposes for years, and is one of the best [illegible] for a modern hotel, as the Pennsylvania railroad tracks and the noise made by locomotives and shifting cars will soon be removed to Duquesne way.

August Manke sold to Herman Manke a lot 25x120 feet in the southeast side of Thompson street, Twenty-first ward, for $2,500.

Giuseppe Vardotta bought from Frank Varolette 40x150 feet in Beechwood street, Thirty-seventh ward, for $1,500.

The Freehold Real Estate Company sold for William Callery to Louis Schiring 25x125 feet in Webster avenue, Thirteenth ward, for $300 cash.

The Diamond Real Estate Company sold for the Provident Company lot 71 in their plan in Nansen street, near Flowers avenue, Twenty-third ward, for $300.

The bureau of building inspection issued these permits yesterday: To Banker Brothers, one-story brick auto stable, at Commerce street and Baum avenue, Twentieth ward, to cost $12,000; to Mrs. Emma J. Graff, one-story ironclad storage house, at Beatty and Kirkwood streets, Nineteenth ward, to cost $300.

SOCIETY

MISS ANNE VOGDES MACBETH will be her sister's maid of honor and only attendant at the marriage of Miss Helen W. Macbeth and Dr. William Benjamin Boggess on Tuesday, September 12. The wedding will take place at 12 o'clock noon at "Glamis," the new summer home of the bride's parents, Mr. and Mrs. George Alexander Macbeth, in Bethlehem, N. H. The bride-elect will entertain a house party of three Pittsburgh friends over the wedding, her guests including Miss Katherine Reed, Miss Harriet W. Balken and Miss Roma Huselton. Judge and Mrs. James Hay Reed will accompany their daughter to Bethlehem to remain over the Sunday preceding the wedding. Mr. and Mrs. Charles H. Spencer and Mr. and Mrs. Henry Duff Balken will be other Pittsburgh neighbors of the Macbeths who will be in attendance at the wedding. After a wedding trip Dr. Boggess will bring his bride to Pittsburgh, where they are to be at home in Center avenue, Shadyside, after November 1.

Cards in Sewickley.

Miss Edna Agnew, Mrs. John D. McCord, Miss Anna Smith and Miss Marion Chesbro captured the prizes at Miss Julia McCord's card party, which she gave at her home in Sewickley yesterday afternoon. The guests of honor were two cousins of the hostess, Miss Jean Gray and Miss Eleanor Gray of this city, who are spending a fortnight in the valley. Five hundred was the game played at four tables, and in addition to the prize winners the guest list included Miss Katherine Wolcott, Miss Winifred Scott, Miss Gertrude Scott, Miss Jean Stevenson, Miss Mary Stevenson, Miss Mary McKinney, Miss Virginia McCready, Miss Edna Agnew, Miss Helen Smith, Mrs. C. Arbuthnot Agnew, Mrs. John Roberts and her niece, Miss Putnam of Sioux City, Ia., and Mrs. Wilfred D. Chester.

Keefe-Wassel.

Miss Alice Beatrice Keefe and Charles Paul Wassel were quietly married at 8 o'clock yesterday morning in St. Brigid's Roman Catholic church. Miss Katherine Keefe and James McCall as bridesmaid and best man were the only attendants, and the ceremony was performed by the Rev. Father John Barry. The bride wore a white net robe hung over taffeta, a white lace hat, plume-trimmed, completing her toilette. She carried a prayer book, while her sister, in white organdie and white lace hat, carried pink roses. After the ceremony a breakfast was served at the home of the bride's mother, Mrs. J. J. Keefe, in Devilliers street, and at the conclusion of the breakfast Mr. and Mrs. Wassel began their wedding trip. They will make their home in this city.

Announce Engagement of Niece.

Miss Mary A. Potter and Miss Sue B. Potter of Washington, Pa., announce the engagement of their niece, Miss Bessie Mathison Boyce, and Reppell B. Mutzig of Bend, Ore. The wedding will be a quiet event of early September. Miss Boyce is the youngest daughter of the late Mr. and Mrs. William Boyce, and is prominent in Washington society. She is a graduate of Washington seminary, while her fiance, who is a Washington and Jefferson man, is a son of Mr. and Mrs. Jacob J. Muntzig. He formerly lived in Wilkinsburg.

Dance for School Set.

Mrs. H. Will Alexander of Oakmont and Mrs. John Crookston of Verona have invitations out for an informal dance in the Oakmont Boat club next Tuesday evening. The honors of the occasion will be shared by Miss Annie Alexander and Miss Helen Rebekah Crookston, daughters of the hostesses. Miss Crookston will resume her studies at St. Xavier's academy in Latrobe next month. The guests at the dance will be the members of the school and college sets.

Evening Card Party.

Mr. and Mrs. William Campbell of Oakmont have issued invitations for an evening card party to be given on Friday, September 8. As this is the first evening event of the summer in Oakmont social circles it will, no doubt, be of unusual interest in the valley borough, as the men are included in the guest list. Euchre will be the game played.

Miss Hunter Will Be Hostess.

Miss Maude E. Hunter of Mellon street, East End, will entertain at cards in the Oakmont Boat club on Tuesday of next week in honor of Miss Susan Paul, whose engagement to W. R. Bauersmith was recently announced. Miss Hunter is a former Oakmont girl and is spending two months with her sister, Mrs. William T. Drill of that place.

Engagement Is Announced.

Formal announcement is made of the engagement of Miss Carrie M. Steiner of Mt. Washington and Wesley P. Muse of Oakland. The wedding will be an event of the fall. The announcement of the engagement was made recently at a dinner given by Mrs. Charles Miller of Carrick, Pa., as a housewarming for her new home.

McAdams-Barbour.

Mr. and Mrs. Robert McAdams of the East End have issued cards announcing the marriage of their daughter, Miss Mary Scott McAdams, and Robert Wilson Barbour, the wedding having taken place yesterday. Inclosed with the announcements are at-home cards for days after October 1 in Tioga street, East End.

Notes of Society.

Mr. and Mrs. William C. Amos of Squirrel Hill have returned from Atlantic City and are now at "Aidenn," their country place on Coraopolis Heights, where they will spend the remainder of summer and the fall.

The Knights and Ladies of Honor of Allegheny county will hold an outing in Kennywood park next Wednesday for the benefit of the entertainment fund of the grand lodge which will meet here in October.

Mr. and Mrs. John I. Everson and Miss Mary Porter Everson of Homewood avenue leave today for Beach Haven to spend some time.

Miss Nona Neely of Franklin street, Allegheny, entertained a few friends at dinner last evening at which time the engagement of her sister, Miss Edna Ethel to Frank G. Lee, of Pennsylvania avenue, Allegheny, was announced, to terminate in a wedding Wednesday, September 6.

Mrs. T. A. Linden entertained her friends last night at a card party at her home in Fifth street, Oakmont.

Friday evening, August 25, Miss Ruby Quigley of Oakmont, will give a party in honor of her house guest, Miss Emma Newell of Denver, Col. About 50 young people are invited. Miss Newell leaves for her home Saturday.

Frank A. Drynan of Sewickley has returned from a lengthy trip through the east.

Mr. and Mrs. A. D. Frankston of Crafton announce the engagement of their daughter Etta to Samuel D. Markus, of the firm of Scott & Markus of Braddock and Turtle Creek.

Among the Clubs.

Jubilant Children at Valencia.

The August number of the Kingsley House Record is out and is filled with letters from friends and visitors at the summer home, Lillian home, in Valencia. The total number of people, adults and children, entertained at Lillian home this season, including the party which is now there, is 2,138. Of these 1,467 were children and 671 were adults. The present party returns to the city tomorrow and the managers wish to take two more parties of 150 people each out to Valencia before the home is closed. But in order to do this at least $1,500 more is needed. The contributions for this fresh air work up to date have amounted to $5,216.

One little girl who was taken to Lillian home for two weeks sent the following letter to William H. Matthews, the head resident of Kingsley House and also in charge of the summer home:

"I thought I would write you a few lines to let you know I got home safe. Mamma did not know me hardly. She said I looked like a colored girl, but I don't care, for I had a good time, if I am sunburned. I hope I can come out again. I liked to go swimming and everything. Good-by."

A characteristic boy's letter is this one: "I put my turtle in a box and all the kids round here come and see it. My pap says I got fat. There's no place to swim up here, and I wish I was in the boat today, like I was last week. I saw Mr. Moore in Popular alley yesterday, and he said the fellers there now can't play ball like us fellers could. If any fellers get a second time, I wish I will be one of them."

A mother who supports five children the year around acknowledged her return after a two-weeks' outing at Valencia in the following pathetic letter:

"The children and me got home safely. They talk about Lillian home all the time. I am going back to my work tomorrow and I feel so much better for it since I was in the country. It seemed so good not to be working and scrubbing every day. Jimmie says Mr. Matthews is going to get him a job. I hope he will be a good boy and work good. It would help me to keep the others. We are very thankful for your good treatment of us."

During the last four weeks 44 large baskets of flowers were sent in from Valencia by the children at Lillian home to be distributed in the homes of the sick and in the different hospitals in Pittsburgh and Allegheny. The gardens about Lillian home furnished about half the flowers and the remainder came from the gardens of Valencia people and neighboring towns.

Charleroi Club's Instructive Program.

The year book of the Athene club of Charleroi has appeared in a dainty dress of white embossed with gold. The Athene club was organized in 1902, joining the State federation the following year. Its membership is limited to 30, and it meets on alternate Saturday afternoons from October until May in the Presbyterian church parlors.

The subject of study this year is to be "English Fiction," commencing at the first meeting on October 7 with a study of the "Origin of Prose Fiction." Among the English writers whose works will be under discussion during the year are Daniel Defoe, Henry Fielding, Smollett, Sir Walter Scott, Thackeray, Charles Dickens, George Eliot, Jane Austen, Mrs. Humphrey Ward, Thomas Hardy, Robert Louis Stevenson, Oliver Goldsmith, S. DOINGS AT ATLANTIC CITY.

ATLANTIC CITY, N. J., Aug. 23.—(Special.)—J. D. Armstrong, a Pittsburgh visitor, is nursing a broken wrist. Whether he sustained the painful injury in running his automobile or bathing is a puzzle. The first pain he felt was when he wrenched his arm in running his automobile, but the seriousness of the injury was not discovered until after he had a surf bath. L. S. Richardson is another Pittsburgh automobilist who turned in a card today of 75 hours for the 400 miles. He reported laughingly that it would have been cheaper to use a railroad train and pay express charges, as he burst three tires on the roadways through the mountains.

Miss Eva Brown of Pittsburgh is the guest of Miss Edith McMullen, who is at the Raleigh with her parents, William McMullen and Mrs. McMullen of Pittsburgh.

E. J. Schellentreger arrived here from Pittsburgh yesterday to join Mrs. Schellentreger and her two sons, who are at the Raleigh. W. H. Leahy of Pittsburgh accompanied him on the trip.

EASTERN STOCKS BUOYANT, CLOSING HIGHER ALL AROUND

Amalgamated Copper and Pennsylvania at Last Join the Upward Movement—Pittsburgh Securities Remain Dull and Listless.

By JOHN O. BAGLIN, Financial Editor.

The New York stock market was active and buoyant yesterday, the transactions again exceeding 1,000,000 shares. It was a better market than on Tuesday, because of the more even distribution of business. Erie and Reading, which had dominated the market on Tuesday, continued active, but they did not overshadow the rest of the list. The strong tone was maintained all day, and every important stock closed at a net gain.

The London market for American securities was active and higher, and the feeling in foreign financial circles generally was more cheerful. Russian and Japanese bonds were higher and English consols were steady at the previous decline. London advices on the status of peace negotiations were more confident of a favorable outcome than at any time since early last week. It is estimated that London bought 40,000 shares American stocks on balance, largely Pennsylvania Railroad.

An important contribution to the confidence of the bulls was the fact that Amalgamated Copper and Pennsylvania at last joined the upward movement and were leaders of the advance. Amalgamated Copper had the benefit of a further rise in the price of copper, the metal being advanced ¼ cent a pound to 16¼ cents, the highest for more than four years. Amalgamated opened at 86, which was the lowest, and advanced to 87⅞, which was the highest and closing quotation. This is just 2 per cent below the high prices record early in the year. Pennsylvania opened at 146¾, eased off to 146⅛, advanced to 147½, and closed at 147⅛, a net gain for the day of 1 per cent. The heaviest buying came from Philadelphia and London sources. If the present temper of the market continues it will probably be an easy matter to advance the price to 150, the objective last spring when the company offered $100,000,000 3½ per cent convertible bonds to stockholders, the bulk of which had to be taken by the syndicate of bankers who underwrote the issue. The disparity between the price of Pennsylvania and other high-grade railroad stocks was so conspicuous that the bull leaders probably felt that they would have to "bull" Pennsylvania in order to give the whole market the appearance of a logical movement.

Another very strong feature of the railroad list was Union Pacific, which advanced 2 per cent to 137⅝ and closed at 137⅜, being within a fraction of the highest price ever quoted. St. Paul, which was quoted ex-dividend of 3½ per cent, recovered a portion of the dividend and closed strong. Missouri Pacific closed at a net gain of 1⅞ per cent, and the minor Gould issues were strong and higher. Northern Pacific was the only important stock on the list to close lower, and its net loss was only ½ per cent. The other high-priced issues like Delaware & Hudson, Northwest and Great Northern preferred, were moderately active and held their previous gains. New York Central lost most of its early advance and closed only ⅛ higher.

United States Steel issues were strong and higher, the common advancing to 37¾ and the preferred to 105⅜, and both closed at the top. The news relating to the iron trade continues to be of a very encouraging nature, it being reported in Pittsburgh that the Steel Corporation was making arrangements for further increasing the output of coke.

Call loans were easy, the rate opening at 2 per cent, declining to 1¾ per cent and being offered at 1½ per cent at the close.

There was a further dwindling of business on the Pittsburgh stock exchange, the sales for the day footing up only 2,597 shares stock and $10,000 bonds. There was hardly enough business in the leading stocks to indicate the actual tone, and the final sales showed six stocks unchanged, six lower and seven higher. Crucible Steel common was unchanged at 12⅝, and the preferred recovered to 64½ on purchases of a little more than 100 shares. United States Steel common and preferred followed the advance in the east and closed firm. Pittsburgh Coal common sold at 14⅛, a decline of ⅞ from the last previous sale, and the preferred was nominally unchanged at 52 to 52¼. Luster Mining was strong, advancing to 40. Tonopah Extension and United Copper were unchanged. Independent Brewing preferred rallied to 40½, but both the Pittsburgh Brewing issues were unchanged. National Fire Proofing preferred sold at 29 to 29¼, closing at the lower price. Window Glass preferred sold at 42, a decline of 1½ per cent, and a total decline from last week of 6 per cent. Westinghouse Electric was firmer, advancing to 85⅝ bid at the close. Pittsburgh, McKeesport & Connellsville 5s declined to 102. The rest of the list was neglected.

NOTES AND COMMENT.

The advance in Amalgamated Copper yesterday to within 2 per cent of the high price reached last April—which, by the way, was the highest since 1901—probably received more attention in Pittsburgh than the movement of any other stock in the market. Last spring the information reached Pittsburgh from a source that was regarded as unquestioned that Amalgamated would have a quick advance to close to par, and that it would be warranted by the showing made in the annual report. Pittsburgh was a large buyer of the stock, but when the annual report made its appearance it was a disappointment, and the stock declined instead of advancing. Pittsburgh bulls contended that the so-called annual report concealed more than it revealed in favor of higher prices, and they held on. During the past few weeks when the metal was advancing, Amalgamated remained stationary, or declined a fraction. Whether it was manipulation for the purpose of encouraging a short interest, or whether the selling was liquidation by insiders of stock which was taken to support the market during the Lawson attacks, is a disputed point; but it is a fact that up to yesterday the market for the stock refused to follow the market for the metal. The latter is now quoted at 16¼ cents a pound, the highest price for more than four years, and within a quarter of a cent a pound of the high price quoted when Amalgamated was paying 8 per cent per annum and the stock quoted above 120. The output of the Amalgamated Copper company for 1904 was 202,000,000 pounds of refined copper, and the average price for the year was 13.09 cents a pound. Today's price of the metal is 3.16 cents higher than last year's average, and this increase, figured on Amalgamated's output, is equivalent to more than 4 per cent on the outstanding stock. Of course it does not follow that the company will realize the difference on its full production, but the situation is certainly encouraging for an increase in the dividend rate, and Wall street was yesterday confidently predicting that the rate would be put to a 6 per cent basis.

The Calumet & Arizona Copper company has declared a dividend of $2 a share, payable September 20 to stock of record September 2. News was received from Bisbee yesterday of an important strike in the Junction, and that stock was strong and higher, closing at 90 bid, 96 asked.

The day's trade reports bore closely upon coal, copper and iron and steel conditions. The recent rise in the coal shares is explained in part by advices from the distributing centers telling of increased activity. The recognized authority in the steel and iron trade testified to very satisfactory conditions in that industry. The United States Steel shares were more active and stronger than for some days.

New York money conditions continue easy. The bulk of the day's call loans were made below 2 per cent, while the rates show a yielding tendency, four months' money being offered at 3¾ per cent as compared with 4 per cent on the previous day. The financial institutions with important interior correspondents are agreed that in spite of the probable increased crops the banks in the west and southwest will this fall finance the crop movements to a greater extent than in recent years. There will nevertheless be heavy withdrawals of money now on deposit in New York by the banks of those sections.

There were no transactions on the local board in Philadelphia Company yesterday and the stock closed nominally unchanged at 46 asked. The street is still puzzled to account for the recent demand for the stock, which seems to come from local insiders, while the selling comes from the east. A member of a local bond house remarked that the eastern demand for the underlying bonds of the Philadelphia Company system is by no means so good as it was a few months ago. These bonds are very closely held, and it used to be that whenever any of them come upon the market they would meet with ready purchasers in the Philadelphia market. Now it occasionally happens that Philadelphia offers the bonds in Pittsburgh. It is possible that the experience of United Gas Improvement Company this summer has had something to do with changing sentiment in Philadelphia on the securities of public-utility corporations.

After selling at 85 and 85½, Westinghouse Electric closed at 85⅝ bid. There were no transactions in Air Brake or Union Switch and Signal.

Natural gas stocks were unusually quiet, the only sales on the local board being 35 shares Light & Heat at 37 and 50 shares Ohio Fuel at 43.

The Boston News Bureau has the following regarding North Butte, in which Pittsburgh is largely interested: "Before the Speculator mine in Butte, Mont., was purchased by the Bonanza Circle people for $6,000,000 it was offered to the Amalgamated Copper Company for $5,000,000 cash and refused. The Amalgamated engineers reported upon it and it is understood their report, while favorable, was not enthusiastic, and, as the Amalgamated Company was on the point of issuing a financial statement and was not especially anxious to have its cash resources reduced by $5,000,000, the property was not taken over. The North Butte Company is now earning within a few thousand dollars of $200,000 net per month, or 40 per cent per annum upon its stock, and leading interests say that this property now gives evidence of a second Boston & Montana. The company has a very favorable smelting contract with the Washoe Company, so that its net earnings are immediately available for dividends and they will probably be started in the fall. The Amalgamated interests are perfectly willing to have another successful mining company in the Butte camp, as it serves somewhat as a buffer between the Amalgamated and Heinze companies. At the present selling price of $35, as compared with $15 per share, the subscription price only a few months ago, the property, which cost $6,000,000, is now selling in the market for $14,000,000."

Japanese bonds continued to be the active feature of that department of the New York market yesterday. The sales foot up $1,646,000, out of a total of $4,133,000 for all bonds. The first series 6s closed ⅛ lower at 100¾, the second series, 6s, ¼ higher at 99¾, the first series, 4½s, ½ higher at 90½, and the second series, 4½s, ½ higher at 89½. The most active was the first series, 4½s, which sold to the extent of $851,000 at prices ranging from 90¼ to 90½.

Morris, Brown & Company sold $10,000 Pittsburgh, McKeesport & Connellsville 5s at 102 to Robinson Bros. and Barbour.

In the local curb market the sale was reported of a small lot of Window Glass Machine common stock at 18. For Oriental & Masbate Gold Mining, 45c was bid for 10,000 shares, 43c for 500 shares, and 42c for 100 shares at the close of the market. Golden Anchor was quoted at 95c bid, 98c asked. Kansas Natural Gas was quoted at 53 bid. Fayette County Gas, 32c bid, 35c asked; Union Natural Gas, 119 bid, 119½ asked; Window Glass Machine preferred, 25 asked.

The transfer of twenty coal companies in Indiana, which are merged into the Vandalia Coal Company, has been completed, and checks aggregating $4,000,000 were paid for the properties. The Vandalia Coal Company will have operating offices at Linton and Terre Haute.

The report that the Railway Securities Company will retire $5,000,000 4 per cent collateral trust certificates, secured by 80,000 shares of Illinois Central stock, which, it was alleged, had been sold to Union Pacific interests, is authoritatively denied.

General Chemical directors have declared the regular quarterly dividend of 1½ per cent on the preferred stock, payable October 2.

Erie common and second preferred advanced to new high records. Reading recovered to within a fraction of its record price, but was later irregular. The best opinion is that the operators connected with certain large pools took advantage of Tuesday's active market to unload a large part of their holdings, but are still committed to higher prices.

"What was the cause of the sensational rise in Reading? Different theories were offered. That referring to a new coal railroad deal whereby Lake Shore and Baltimore & Ohio are to assume a larger control of anthracite properties through the issue of a collateral trust bond was denied in well-informed circles. It was said in quarters close to members of the clique that a prominent public man has been heavily short of Reading for many months—most of his sales having been made between 90 and 100—and the pool is believed to have formed its plans to make him cover at a heavy loss. His sales were alleged to be more than 100,000 half shares. If he lost 20 points on this amount of stock, he would be $1,000,000 out of pocket. The clique would presumably have a profit of close to that amount if it could dispose of its holdings at an advance of 20 points. This, however, would be out of question, since the pool necessarily had to buy all the way up, in order to carry out its program of driving in the shorts. An authority on the anthracite trade said that Reading was going up on its earning power, which amounts to some 10 per cent net on the common stock."—New York Evening Post.

PROSPECTS OF PEACE HELP STOCK MARKET

Buyers in Better Spirits and Dealers Have More Hopeful Outlook.

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Aug. 24.—The Herald this (Thursday) morning says:

Stocks ruled strong yesterday in a more active market. Some special features scored noteworthy gains. The distribution of business was somewhat better than on the preceding day, when about 5 per cent of the dealings were confined to Erie and Reading stocks. Still the activity was concentrated on comparatively few issues, and these were, as a rule, the securities in which the banking pools are interested. The market was of a character to permit an excellent distribution of stock, and selling of the best character was reported, coincident with the market advance. Speculative sentiment was bullishly inclined. Commission houses reported little general business, however, and the theory still obtained that the large operators and the banking pools were chiefly instrumental in the day's demonstration.

Optimistic opinion prevailed as to the outcome of the Portsmouth peace negotiations, and prospect of an early peace was the reason generally assigned for the strength of both the foreign and domestic markets. Brokers held that the "big men" were discussing the peace prospects in advance, an operation which has been in progress for a long time. Aside from the better aspect of the peace negotiations there was little in the way of news. The weekly review of the iron and steel industry was cheerful, and an advance in the price of copper metal was taken as an evidence of sustained industrial activity. The crop and weather advices were generally favorable as to cereals, but were reported as unsatisfactory for cotton, which advanced sharply.

Steel Corporation issues participated in the revival of strength and activity. Interest was centered mainly in the common stock, in which a large speculative following has accumulated lines of stock. The statement that the steel corporation was compelled to enter the open market for pig iron supplies, although every one of its blast furnaces was in operation, had a very favorable effect in demonstrating the extent of activity in the steel and iron trade. Current reviews of the week contributed to the confidence in a large prospective business. The preferred sold at a high-record figure.

FIRES AT BURGLAR.

McKees Rocks Man Follows With Revolver, but Intruder Escapes.

Harry Harris of 751 Frederick street, McKees Rocks, was awakened early yesterday morning and saw a stranger with a drawn revolver in his room. The stranger ransacked the place skilfully, keeping Harris in range of his weapon, and succeeded in amassing $59 and a razor. He then backed out of the room.

Harris followed, after securing a revolver, and going down stairs saw the man leaving the kitchen. He fired, but the man neatly dodged the bullet and left for parts unknown.

MARKET AWAITS IRON PURCHASE

Belief That U. S. Steel Will Buy for September Delivery Is Very Strong.

GENERAL NEWS OF THE TRADE

Pending an official announcement of the plans of the United States Steel Corporation regarding a purchase of Bessemer iron for September delivery, the market in that line is featureless, although strong.

Several times recently the report has been started that the corporation has already bought, but this does not seem to be the case. One report yesterday mentioned 60,000 tons as the amount obtained. It is not generally believed that so much will be taken, a maximum of 50,000 being usually mentioned.

That the corporation is preparing to produce an unusually large amount of pig iron during the rest of the year is shown by the statement that the Monastery coke works are to be restarted. This plant is not among the most modern or economical and is operated only at times when the capacity of the better plants is well taken.

The price at which any deal for iron would be made is generally placed at $14 50, valley furnaces. It is expected that the Bessemer association and W. P. Snyder & Co. will furnish the iron.

In the finished lines there is much strength. The demand for structural shapes is exceptionally strong. On angles in stock for immediate delivery as high as $2 25 has been asked and premiums of about $5 a ton have been paid. Rails, likewise, are in heavy demand, the capacity of the mills for the rest of the year being now well taken. The Republic Iron & Steel company's new rail mill is finding plenty of orders, the Pennsylvania, Lake Shore and Erie all contributing to its activity.

The Hardware Market.

The hardware business continues to move along in good fashion, orders arriving in increasing quantities and numbers from the entire territory, showing an improved condition of affairs. The demand extends to all lines, showing that the trade feels the fall business is about to begin. Nails and wire continue to move out in good quantities, as does sheet iron, tin plate and other heavy hardware. The window glass business shows a continued demand for sizes and for stocks necessary to carry on the retail business. Prices in this particular line continue very firm, and there seems to be the feeling that there will not be much glass made for some little time, and that present stocks are good stocks. Prospects look most excellent for a good fall business. No recent changes in prices are noted, but the market continues firm, with the reports of good orders in the hands of manufacturers. The Bindley Hardware Company furnishes the following quotations:

Columbia pocket knives, discount 55 per cent; Albion hatchets, discount 40@10 per cent; Bindley canal shovels, $5 50 per dozen; Great Western files, discount 70@10 per cent; sheet iron, base No. 28, $2 35 the 100 pounds; galvanized sheet iron, discount 70@10 per cent; sash weights, a ton, $27; window glass, first and second bracklets, B single 90 per cent off list Oct. 1st, 1904; all other sizes, single and double, 88 per cent off list Oct. 1st, 1904, for immediate acceptance only; Albion sewing machines, discount 25 per cent; blue and white enameled ware, 50@10 per cent; Albion hot plates, 40 per cent; Albion lanterns, 40 per cent; hay forks, 60 per cent.

MILLS ARE TAXED TO THEIR UTMOST CAPACITY

Iron and Steel Conditions Continue Sound, Especially on Building Materials and Rails.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CLEVELAND, Aug. 23.—The Iron Trade Review tomorrow will say:

Although the volume of new business entered during the past week has not been as large as in some previous weeks, conditions continue sound and mills are taxed to their utmost capacity, especially on building materials and rails. The most interesting development of the pig iron market was the holding of informal conferences by representatives of the Bessemer association with United States Steel Corporation officials concerning the purchase of Bessemer iron for September delivery. The corporation is now using its surplus iron at the rate of 20,000 tons per day, and officials agree that it will be soon necessary to make a purchase.

It is understood that there is a slight difference of opinion on the part of corporation officials and makers of Bessemer as to the price which should be paid, but it is not thought that there will be any serious difficulty in reaching an agreement, and it is probable that the purchase of about 40,000 tons will be announced before the first of September.

NEW YORK, Aug. 23.—(Special.)—The Iron Age tomorrow will say of the iron and metal trades:

To put it mildly, quiet confidence in the future reigns throughout the iron industry, while some of its great captains foretell, with expressions of regret, the coming of a boom this fall. The trade is on the tiptoe of expectation over the purchases of pig iron which the steel corporation is to make. We understand that it will not be done for the next week or 10 days in any case. The officers of the corporation have ordered every modern furnace into blast, so that only Niles, Zanesville and Columbus will be idle. With all these furnaces in operation, and drawing stocks down to the lowest limit, there will be a shortage below requirements of 35,000 tons for September.

FLOUR THE ONLY WEAK SPOT IN LOCAL MARKET

Sugar Famine Is Threatened Now as Supply on Hand Is Very Short.

Despite the intensely hot weather, the local market men were doing an immense business yesterday and prices held firm in all lines. The only weak spot in the list was flour, and it is steadily going down. There was no reduction in the price yesterday, but heavy shading is the rule, and there will undoubtedly be further reductions. The slight advance in wheat yesterday possibly checked a lower quotation.

Sugar is very firm and there is scarcely any in the city, not enough to supply the demand. Refiners claim they are several weeks behind in their orders. This would indicate that a sharp rise would not be surprising.

Eggs have moved up again and selected fresh are scarce. Although quoted at 20c and 21c, premiums are being paid for an exceptionally good article. Butter is strong at the price and the cheese market is much firmer than it was.

Green goods and fruits were enjoying a prosperous run yesterday. Blackberries are now out of the market by the quart and are selling by the crate. Rocky Ford melons are getting down to low figures. York state plums are in market and peaches promise to become a drug.

HAY AND GRAIN.

Receipts.

Receipts yesterday were: Pennsylvania, 15 cars hay, 1 car corn, 22 cars oats, 4 cars feed. Baltimore & Ohio, 5 cars hay, 4 cars corn, 4 cars oats, 1 car straw. Lake Erie, 1 car hay, 1 car rye.

There were no changes in the hay and grain line yesterday and no change in the transaction of business in those lines. Choice hay is still the feature of the market, with best grades of clover at a premium. Oats are plentiful, but receipts are readily taken up at the present prices, so there are few cars remaining on the tracks.

Coffee and Sugar.

NEW YORK, Aug. 23.—The market for coffee futures opened steady with a couple of months unchanged, but generally 5@10 points higher in response to higher French cables and another advance in the rate of Brazilian exchange. Nearby longs seemed to be finding some difficulty in the matter of switching from near to late months, however, and after the first few minutes the market ruled easier, fresh demand being restricted by larger interior Santos receipts and the loss of the early gain in the French market. The close was steady net unchanged to 10 points lower. Sales were reported of 32,750 bags, including August at 7.25c; September at 7.25@7.30c; December at 7.50@7.65c; January at 7.70c; February at 7.70c; March at 7.85@7.90c, and May at 7.90@8.00c. Spot Rio steady; No. 7 invoice, 8⅛c; mild firm; Cordova, 10@13c. Sugar—Raw steady; fair refining, 3⅞c; centrifugal, 96 test, 4c; molasses sugar, 3⅛c; refined steady.

Evaporated Fruits.

NEW YORK, Aug. 23.—Evaporated apples for October and November delivery are held at about 7½c for prime, though buyers in most instances refuse to bid over 7c. The spot market is quiet but firm, with common to choice quoted at 6½@8c; prime, 7@7½c; choice, 7½c; fancy, 8c. Prunes are unchanged with quotations ranging from 4½c to 6½c, according to grade. Apricots are quiet at the moment, but holders are steady to firm in their views. Common to choice are quoted at 8@9½c; extra choice, 9¾@10½c; fancy, 10@12c. Peaches are without change, with fancy the only grade available on spot apparently, and quoted at 11½c. Raisins are quiet but firm; loose Muscatels are quoted at 4½@6½c, seeded raisins, 5½@7½c; London layers, $1 00@1 15.

CHICAGO, Aug. 23.—Butter firm; creameries, 17@21c; dairies, 16@19½c. Eggs firm; at mark, cases included, 15½@16½c. Cheese steady at 10@11½c.

NEW YORK, Aug. 23.—Butter steady; receipts, 9,809 packages. Official prices: Creamery, common to extra, 17½@21½c; renovated, common to extra, 15@20c. Cheese firm and unchanged; receipts, 3,817 packages. Eggs easy and unchanged; receipts, 14,795 cases.

PHILADELPHIA, Aug. 23.—Butter firm; extra western creamery, 22c; do nearby prints, 23c. Eggs scarce; nearby fresh, loss off, 22c; nearby fresh, 21c at mark; western fresh, 21@22c at mark. Cheese firm; New York full cream, fancy, 11¼c; do do choice, 10¾@11c; do do fair to good, 10¼@10½c.

GETS A GOOD PRODUCER IN WOLF SUMMIT FIELD

On the west side of the Wolf Summit field, Harrison county, the South Penn Oil Company has drilled its test on the J. W. Monroe farm into a second pay and the well is flowing through the casing at the rate of 40 barrels a day and increasing. There is some doubt as to the well showing an extension to the old field. Almost a mile west of the Monroe farm producer the Carter Oil Company drilled a test on the D. L. Carter farm through all sands and got a duster. In the Wallace district, Harrison county, the South Penn has drilled its No. 1 on the S. A. Cavalier farm to the top of the Gordon and has shut down to move back the boiler. The well shows considerable gas. In the Garner district, Marshall county, the South Penn has given its No. 7 on the J. C. Cain farm a shot of 80 quarts and it bridged.

In the Burning Springs district, Wirt county, Wolfe & O'Brien have drilled their No. 1 on the Waite tract through the second Cow Run sand and have a four-barrel pumper at a depth of 611 feet. In the same district Roberts Brothers have completed No. 3 on the L. S. Wetzel farm and have a light pumper. William C. Edwards & Co. have drilled their No. 16 on the Rathbone oil tract through the second Cow Run sand and have a two-barrel pumper at a depth of 435 feet. On McFarlan creek, Murphy district, Ritchie county, the Salina Oil Company has completed a test on the Jacob Riggs farm and has a show for a 10-barrel pumper in the salt sand. The rig for a second test on the same farm is building.

In the St. Marys district, Pleasants county, the Capital Oil Development Company has completed No. 5 on the A. H. Cale farm and has a 15-barrel pumper in the Maxon sand. In the same district C. J. Harall & Co. have completed a test on the C. W. Hills farm and have a five or 10-barrel pumper in the Cow Run sand. In the Bone Run district S. H. Neely & Co. have completed a test on the Phoebe Beagle farm and have a show for a 15-barrel pumper in the Maxon sand. In the same district F. D. Kerr & Co. have completed a test on the Allen Holdren farm and have a show for a five-barrel pumper in the Cow Run sand.

Efforts to extend the producing area of the new development on Wells creek, north of Steubenville, Jefferson county, Ohio, are not meeting with success. Unless the test now drilling brings better results it will prove a small pool and something of a disappointment. Slightly in advance of developments, E. H. Jennings & Brothers have completed their test on the Vaughn heirs' farm and have a duster in the Berea grit.

In the Marietta district, Washington county, Palmer & Co. have completed their No. 4 on the J. & P. Brown farm and have a duster. This well is located near Caywood. On Eight Mile creek Neill & Co. have completed a test on the D. V. Rodgers farm and have a very light pumper. At Rano the Unity Oil Company has completed its No. 3 on the R. Ange farm and will have a light pumper. In the [illegible] Mills district the Tecumseh Oil and Gas Company has completed a second test on the James McCoach farm and has a duster in the Big Injun sand. Near Scottown, in the same county, Shay & McMullen have completed their test on the W. H. Hite farm and have a duster in the Berea grit. In the same district R. A. Houston & Co. have completed a second test in the Big Injun on the William A. Day farm and found no oil. They are now drilling to the Berea grit. In the [illegible] district, Monroe county, the Ohio and Indiana Oil Company has completed No. 12 on the W. W. Sterling farm and has a duster. In the same district C. W. Vaughan has completed his No. 21 on the S. H. Mealey farm and has a light pumper in the shallow sand.

Light pumpers and dusters are the rule in the local fields. In Beaver county, Pennsylvania, one mile southeast of the Gorsuch pool, the Tecumseh Oil and Gas Company has completed a test on the U. Swearingen farm and has a show for a four-barrel pumper in the Berea grit. In the [illegible] district, in the same county, [illegible] & Co. have completed a test on the Hicks farm and have a duster in the gas sand. In the Morgantown district, Washington county, Kelly Brothers & Cooper have drilled their test on the Alex [illegible] farm through the 100 and 50-foot sands and have a duster. In the Mt. Morris district, Greene county, the Greene Oil Company has drilled its test on the Morrison farm through all sands and has a duster.

FOREIGN ADVICES FAVOR CHICAGO GRAIN MARKET

Wheat, Corn and Oats Close Higher and Provisions Show a Net Gain.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

CHICAGO, Aug. 23.—Early foreign advices favored the bull side of the wheat market, although later cables quoted prices lower. Traders were seemingly in a waiting mood and business was light. September opened a shade higher to a shade lower, at 80⅜@80⅝c, and under a slight selling pressure went off to 80⅜@80½c. Offerings were of an indifferent character, however, and prices readily responded to an advance in the northwestern markets. Minnesota and South Dakota reported rain, with indications of a continuance of showery conditions. Millers were said to have bought quantities of September wheat against sales of flour for future delivery. Local shorts became apprehensive and their efforts to cover, meeting with restricted offerings, sent prices upward. September advanced to 81c. Profit-taking brought about a recession from the high point. The close was steady, with September at 80⅞c. Clearances of wheat and flour were equal to 262,000 bushels. Primary receipts were 631,000 bushels, against 821,000 bushels a year ago. Minneapolis, Duluth and Chicago received 198 cars, against 260 cars last week and 221 cars a year ago.

A good demand for export corn held prices steady at a small advance. Cash houses were on the selling side of the market, commission houses readily absorbing offerings. High temperatures in Kansas also exerted a sustaining influence, inducing some covering by shorts. September started ⅛c up, at 53c, and except for an early dip to 52⅞c, showed a steady improvement. The close was at the high point for the day, with September at 53⅜c. Local receipts were 601 cars, with 140 of contract grade.

Oats were dull and trading was inclined to drag. The strength in wheat saved prices from suffering a loss and eventually caused a shade of improvement. Acceptances were liberal. September opened unchanged to a shade lower, at 25⅝@25¾c, and closed steady at 25¾@25⅞c. Local receipts were 182 cars.

Provisions advanced under large purchases by packers and for shipping account. The market for live hogs was sharply higher. September pork closed 12½c up, at $14 50. Lard is 7½c@10c higher, at $7 92½@7 95. Ribs made a gain of 12½c, at $8 95.

Estimated receipts for tomorrow: Wheat, 49 cars; corn, 453 cars; oats, 220 cars; hogs, 18,000 head.

NEWS FROM THE MINES.

The Union Copper Company has in the past two weeks sold to the American Smelting and Refining Company and the Tennessee Copper Company upwards of 48,000 pounds of copper on a basis of 16c a pound. The company expects to double its output by the first of September, and it is also at work reopening another shaft, which, in a short time, will enable it to still further increase its production.

At a meeting of the Black Hills Mining Men's association it was decided to send representatives to the state board of equalization to protest against the raise in the assessment of mining properties. The association considered that the proposed raise was a serious blow to the prosperity of the hills.

A Silverton (Col.) dispatch says: "Wilbur F. Slack, H. M. Williamson, Mrs. F. H. Briggs, Dr. J. F. Shafer of Pittsburgh, Pa.; Robert Harrison of Ontario, Canada; A. W. Snyder of Downs, Kan.; C. D. Shafer of Cincinnati, O., and Rev. Henry Henkel of Elyria, O., have been here the past few days inspecting the Green mountain properties of the Pittsburgh and San Juan Mining Company, of which organization the party are the chief stockholders. The ground was carefully gone over and the workings on the company's group of claims were critically inspected, with the result that the members of the party expressed themselves well pleased with the outlook of the claims, and they gave it out positively that work of development on the ground would be at once inaugurated. The company is amply financed to carry on operations on an extensive scale, and undoubtedly before snow flies another shipper will be added to the Green mountain district's list."

The August output of the El Paso Consolidated will be about as usual, or 1,800 tons. The grade of the ore will average $60 in gold to the ton or a gross output of $108,000 for the month. The mine now has a force of about 165 men at work. The work of cutting a station at the 1,000-foot point has just been completed. A pump that is capable of hoisting 2,250 gallons of water a minute, which was purchased two or three years ago, will be installed at once. This pump is the largest ever brought to the Cripple Creek district, and cost the El Paso company $13,500. The work of extending the lateral at the 1,000-foot point will be started as soon as the pump is installed and in good working order.

A report from Bisbee, Ariz., stated that the Junction had struck a large body of 10 per cent ore in the east shaft.

A report from the reduction plant of the Mitchell Mining Company at La Dicha, Mexico, informs President Mitchell that the furnace is running regularly and is putting out about 28 tons of 65 per cent copper matte every 24 hours. This means a production at the rate of 1,000,000 pounds of copper a month. The matte is being hauled to the coast at Acapulco.

The Arizona Pacific Copper Company, near Florence, Ariz., is engaged in sinking a shaft to a depth of 1,000 feet. It is down 350 feet.

Although the figures covering the July earnings of the Granby Consolidated Copper Company have not yet been made up they should approximate $100,000.

Reports from Clifton, Ariz., are that the Shannon Copper Company has uncovered some very good ore in its lowest workings, 250 feet deeper than any previous workings.

On the 1,050 level of the North Star at Tonopah the ore-shoot has widened and the values increased, and the indications are that the ore will continue to widen with depth.

Good headway is being made in the construction of the 100-stamp mill for the Tonopah Mining Company at Wells, 13 miles from Tonopah, and General Manager Keith states that the stamps will be dropping in about six months.

The Metal Market.

NEW YORK, Aug. 23.—The London tin market was very strong, with spot closing at £150 and futures at £151 10s. Locally, the market responded to the advance abroad and closed strong at $33 15@33 50 for spot. The Drygoods Market.

NEW YORK, Aug. 23.—The drygoods market has been very active at second hands and the statistical position makes the first-hand situation a very firm one. Buyers in the primary market are operating conservatively, but healthfully, but jobbers report a very free movement in many departments.

Date Fixed for the Jones' Services.

WASHINGTON, Aug. 23.—Secretary Bonaparte and Admiral Sands, superintendent of the Naval academy, at a conference today determined upon April 24, 1906, as the date for the services in honor of Admiral John Paul Jones. This date is the anniversary of the capture of the British man-of-war Drake by Capt. Jones.

THE THREE RIVERS

The stage of water at Davis island dam at 9 o'clock last night was 5 feet and the river was falling.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CINCINNATI, O., Aug. 23.—At 6 p. m. today the stage of the river was 17.6 feet and rising. A slight rise is reported from Franklin, Pa., which is at the headwater of the Allegheny river. This rise will serve to stay the present water in the river for several days. On account of this rise Capt. J. F. Ellison, manager of the Pittsburgh and Cincinnati packet line, has decided that it would be safe to send the Queen City to Pittsburgh Saturday. Other boats for this line will follow as long as the water is safe for navigation. There are few towboats moving at present. All of them which came down on the last rise are either on their way back to headwaters with empties or have been sent below with empties. Clear and warmer.

WHEELING—River 6.5 feet and falling. Cloudy and warmer. Departed—Kanawha for Charleston, 6 a. m.; Bessie Smith for Pittsburgh, 8 p. m.; Ben Hur for Parkersburg, 6 p. m.

LOUISVILLE—River rising; in canal, 8.2 feet; on falls, 6.6 feet; below locks, 15.8 feet. Clear and warmer.

STEUBENVILLE—River 4 feet 9 inches and falling. Cloudy and warm.

PARKERSBURG—River 7 feet and stationary. Clear and hot. Bedford left at 4 p. m. for Wheeling. Greenland left at noon for Pittsburgh.

GREENSBORO—River 7 feet 6 inches and falling. Fair and warm. Columbia down Thursday; Woodward up.

WARREN—River 5 feet and falling. Clear and warm.

OIL CITY—River 1 foot and falling. Clear.

POINT PLEASANT—River 6 feet 5 inches and falling. Cloudy. Up—Douglas Hill, Sam Brown. Down—Keystone State, Henry M. Stanley.

MORGANTOWN—River 6 feet 8 inches and stationary. Fair.

MARIETTA—River 6 feet and falling. Cloudy and hot. Lorena up, 3 a. m.; Greenland up, 6 p. m.; Kanawha down, 4 p. m.

GALLIPOLIS—River 8 feet 6 inches and falling. Partly cloudy and hot.

TOWBOATS WILL GET UP.

Heavy Rains Will Bring Enough Water to Allow Empties into the Pool.

Heavy rains up the Allegheny have started a rise in the river which will allow the fleet of empties now at lower ports to get into the local harbor. A number of tows are tied up in the Ohio awaiting higher water. This rise will not be enough to let any coal out, but will be plenty to get empties in and the towboats back home, ready for another shipping stage.

The application of the Baltimore & Ohio Railroad Company to change the harbor lines on the south side of the Ohio river, below the Point bridge, will be fought by the river interests. The railroad company wants to fill in along the river bank to lay more tracks. The rivermen claim this will seriously interfere with unloading coal at the point in dispute. A hearing will be held some time in September.

The Queen City arrived late yesterday, having been delayed all night by fog in the lower river.

The Columbia got in yesterday from Morgantown. She left again at 4 o'clock.

The Bessie Smith will be in from Parkersburg today.

Capt. S. A. Gilmore has purchased the Reliance, a small steam yacht, which he will let to pleasure parties.

The crew of the W. W. O'Neil arrived home by rail yesterday. The boat is tied up at Fish Creek.

FIREMEN RESCUE WOMEN FROM BURNING BUILDING

During a fire in the three-story building at 1541 Fifth avenue early yesterday morning the firemen rescued two unconscious women from the building. The first floor is used by Joseph Marcus as a store and he occupies the second floor for dwelling purposes, while Mrs. Emma Williams lives on the third floor. When the firemen were called out at 4:25 a. m. they found Mrs. Williams unconscious on the third floor, and Miss Mary Engler, who is employed by Marcus, on the second floor. The damage to the stock and building is about $3,000, while Mrs. Williams lost $300 worth of goods.

EVANGELIST COMING BACK FOR A CAMPAIGN

NEW YORK, Aug. 23.—Simultaneous with the sailing for Europe today of Charles Alexander, the evangelist, the announcement was made that in February Mr. Alexander would return with Dr. Torrey, and open a singing revival in Philadelphia. John Wanamaker was said to be prepared to furnish the expenses for this campaign, which it is planned to extend across the entire United States.

WEST PENN ROAD BEING IMPROVED

Nine Miles of Single Track May Be Doubled Next Year—Are Handling Much Freight.

DELANO APPRECIATES RAMSEY

Within a few weeks the Pennsylvania railroad will have completed three miles of additional second track on the West Penn division. This will extend the double track roadway from White to Tunnelton and will give a total of about 60 miles of double track road for the division from Allegheny. There will remain less than nine miles of second track to be built between Tunnelton and Blairsville to give the entire division two tracks. The enormous amount of freight traffic moving over the division, and has been increasing every year for the past several seasons, calls for the completion of this second track work at an early date, and it is probable this will be included in next year's program for Pennsylvania improvements.

The work on the three-mile stretch between White and Tunnelton has been rather heavy at some points. There have been fills made to reduce grades at some places, one stretch alone being about a mile in length. Curvature is also being slightly reduced, although the curvature of that portion of the division is not excessive. Several hundred men are now engaged in the work and one of the new tracks is in use over the longest fill. For most of the distance between Allegheny and Freeport the company has three tracks, and at some places there are four running tracks, with long sidings in addition.

The heavy traffic that is being handled is keeping the division employes busy as bees. In a ride over the road from Blairsville to Allegheny at least two score of trains are met going eastward heavily laden with ore, coal, finished products and grain. The division shops are kept busy with repairs, while the supervisors and their forces of section men see that the road is kept in good shape for handling the heavy traffic. Minor improvements are being made at a number of places.

Delano's High Respect for Ramsey.

B. A. Worthington, vice president of the Wabash system's lines east of Toledo, who returned yesterday morning from an inspection trip of two days over the Ohio lines, in speaking of the Ramsey-Delano letter episode, which has become the most interesting bit of railroad talk for many months, said that Mr. Delano has a high regard for Mr. Ramsey, and he has never heard Mr. Delano speak in any but appreciative terms.

"Since I have become associated with the Wabash system," said Mr. Worthington, "I have heard Mr. Delano mention Mr. Ramsey's name only two or three times. On these occasions there was an appreciative note in Mr. Delano's expression regarding Mr. Ramsey's ability, showing that he has a great respect for Mr. Ramsey. I feel certain there must be some misunderstanding on Mr. Ramsey's part."

Mr. Worthington said his trip had been made in connection with proposed extensions of sidings and other improvements at important points on the Wheeling & Lake Erie, and that General Manager Blickensderfer and Chief Engineer Barnsley will continue this investigation for urgently needed extensions throughout this week.

B. & O. Starts Wheeling Work.

Hoover & Kinnear of Columbus, O., have started work on the masonry, retaining walls and grading in connection with the $2,000,000 improvement to be made by the Baltimore & Ohio railroad in Wheeling. This contract, which was awarded for about $300,000, will be followed shortly by contracts for the combined office and passenger station building, the freight house and new yards and the laying of tracks. The plan calls for the relocation of the Wheeling, Pittsburgh & Baltimore railway between Roff street and the connection with the main line of the Baltimore & Ohio south of Wheeling creek, the erection of a new bridge over this creek and the elimination of grade crossings at Main, Market and Chapline streets by the erection of overhead bridges for the railroad. The new line will be built on the company's property instead of in the public street, as at present. It will also avoid the necessity of Pittsburgh-Wheeling trains backing into and out of the passenger station. This station will be 50x90 feet, three stories high, and will run south of Sixteenth street, between Market and Chapline streets. The freight house will be built north of Wheeling creek and the bulk yard south of this creek. A large yard, to be known as the Sixteenth street yard, will be built.

Good Work in Bridge Building.

Not having caused a slow order during the 12 months of reconstruction of the Pittsburgh & Lake Erie and Baltimore & Ohio bridges over the Shenango river at New Castle Junction, and not a single accident during the period of construction, is the good record of the contracting firm of C. A. Sims & Co. of Philadelphia and Pittsburgh. The reconstruction of these bridges was necessitated by the ravages of floods about 18 months ago. The provisions of the contracts were that the reconstruction was to proceed without interference with traffic. This was adhered to to the letter by the contractors. The bridges have been built exceedingly strong, so as to combat floods in the future. The foundations were carried 12 feet below the river bed and placed on a gravel foundation.

Big Outing for Conductors.

A union outing of eight divisions of the Order of Railway Conductors in this vicinity is planned to be held at Rock Point on Saturday, September 2. The divisions interested are Nos. 114, 177, 201, 217, 289, 314, 433 and 447. Special trains will be operated to the park for the picnic. The general committee consists of O. C. Patterson, L. V. Stevenson, M. L. Phillips, G. E. Vance, M. R. Matthews, W. Boale, W. J. Burke, Emmett A. Gerren, G. C. Mowery, John Daley, P. J. Kane, Frank J. Packer, James McCaffrey, J. E. Holohan and F. R. Thomas. The arrangements committee consists of P. Rafferty, W. W. Lehman, R. E. Simpson, John Wooton, W. Mothoral and T. J. Morrow.

Railroad Notes.

The report is again current that the Vanderbilt interests are identified with the extension of the Dry Fork railroad from Hedricks to Rowlesburg, W. Va., and that this road is to be a portion of the line from Pittsburgh to a connection with the Chesapeake & Ohio to the Atlantic seaboard through West Virginia.

A. R. Raymer, assistant chief engineer of the Pittsburgh & Lake Erie, who returned from his vacation sojourn in the Muskoka lake district Tuesday, went to Buffalo last evening to attend the monthly meeting of the New York Central lines' signal association today.

R. B. Chase, traveling agent of the American Refrigerator Transit Company at Detroit, Mich., was here conferring with Wabash officials.

Brakeman Walter Hanna of the West Penn passenger service is enjoying camp life along the upper Allegheny river, and Brakeman E. J. Woodward is hunting in the Allegheny mountains.

Agent W. E. Hawk and his assistants in the Greensburg ticket office of the Pennsylvania railroad were kept busy yesterday caring for a monster excursion from there to Rock Point.

Conductor Joseph W. Dickson of the Baltimore & Ohio is employing his brush and paints in sketching Allegheny mountain scenery in the vicinity of Scalp Level.

It is reported from Cleveland that the West Shore has awarded a contract to the General Electric Company for equipping its line between Utica and Syracuse with electricity.

Leonard D. Tufts, aged 72 years, retired road foreman of engines on the Pennsylvania's Delaware division, died Tuesday. He had been identified with the road since 1854.

The exhibition of the Westinghouse Company's train of 50 cars equipped with new patterns of draft rigging and airbrake valves at Buffalo yesterday, under the direction of Assistant General Manager Blackall, was witnessed by a large number of operating and mechanical officers.

Pittsburgh firms may share in the Japanese equipment and supplies which will be ordered to the amount of $50,000,000 in this country by Toki Oyata, mechanical engineer of the Japanese government railways, and five other officers who are in America for that purpose. M. Oyata says he thinks five years hence Japan will be selling equipment and supplies to the United States and European railways.

The Pullman company has issued orders that no banners will hereafter be permitted upon the outside of Pullman cars. In several instances, it is stated, banners have caught fire and injured people, causing the company to pay damages.
